

Steps to Get Your Rebate

Step 1: Fill out the online rebate application. Have the following documents nearby, as you will need them to complete your application:

- Copy of your water bill
- Copy of sales receipts of the devices you purchased

Step 2: Submit the required documents. You'll receive a confirmation email specifying the next steps. You must submit the following paperwork within 60 days from the date you applied online:

- Copy of your water Bill
- Copy of sales receipts
- Copy of the email confirmation page

Step 3: Install your device(s). Complete the installation of the devices you purchased prior to Step 4.

Step 4: Schedule your installation verification site visit. For Smart Timer and Rotating Nozzle rebates, you will be notified within 3-5 weeks to schedule an installation verification inspection. This verification appointment may take as long as 45 days to schedule depending on your ability to set the appointment.

Step 5: Get your rebate check. Please be patient. The total time to receive your rebate (once you have completed the online application, Step 1) will be approximately 4 to 6 months.

For Commercial Properties, tutorial videos are available through the links below:
