MEETING OF THE
BOARD OF DIRECTORS OF THE
MUNICIPAL WATER DISTRICT OF ORANGE COUNTY
Jointly with the
PUBLIC AFFAIRS AND LEGISLATION COMMITTEE
July 18, 2016, 8:30 a.m.
Conference Room 101

Committee:
Director S. Tamaribuchi, Chairman
Director B. Barbre
Director Hinman

Staff: R. Hunter, K. Seckel, J. Volzke,
P. Meszaros, H. Baez

Ex Officio Member: W. Osborne

MWDOC Committee meetings are noticed and held as joint meetings of the Committee and the entire Board of Directors and all members of the Board of Directors may attend and participate in the discussion. Each Committee has designated Committee members, and other members of the Board are designated alternate committee members. If less than a quorum of the full Board is in attendance, the Board meeting will be adjourned for lack of a quorum and the meeting will proceed as a meeting of the Committee with those Committee members and alternate members in attendance acting as the Committee.

PUBLIC PARTICIPATION
Public comments on agenda items and items under the jurisdiction of the Committee should be made at this time.

ITEMS RECEIVED TOO LATE TO BE AGENDIZED - Determine there is a need to take immediate action on item(s) and that the need for action came to the attention of the District subsequent to the posting of the Agenda. (Requires a unanimous vote of the Committee)

ITEMS DISTRIBUTED TO THE BOARD LESS THAN 72 HOURS PRIOR TO MEETING -- Pursuant to Government Code section 54957.5, non-exempt public records that relate to open session agenda items and are distributed to a majority of the Board less than seventy-two (72) hours prior to the meeting will be available for public inspection in the lobby of the District’s business office located at 18700 Ward Street, Fountain Valley, California 92708, during regular business hours. When practical, these public records will also be made available on the District’s Internet Web site, accessible at http://www.mwdoc.com.

DISCUSSION ITEMS

1. LEGISLATIVE ACTIVITIES
   a. Federal Legislative Report (Barker)
   b. State Legislative Report (BBK)
   c. County Legislative Report (Lewis)
   d. Legal and Regulatory Report (Ackerman)
   e. MWDOC Legislative Matrix
   f. Metropolitan Legislative Matrix

2. HIGH SCHOOL EDUCATION PROGRAM REVIEW
ACTION ITEMS

3. ADOPT LEGISLATIVE POSITIONS
   a. Ab 2909 (Levine) – Water Transfer or Exchange, Expedited Review
   b. Other Legislation as Presented

4. ISDOC OFFICER ELECTIONS

5. CALIFORNIA SPECIAL DISTRICTS ASSOCIATION (CSDA) 2016 BOARD OF
   DIRECTORS ELECTION – SOUTHERN NETWORK REGION, SEAT B

INFORMATION ITEMS (THE FOLLOWING ITEMS ARE FOR INFORMATIONAL PURPOSES ONLY –
BACKGROUND INFORMATION IS INCLUDED IN THE PACKET. DISCUSSION IS NOT
NECESSARY UNLESS REQUESTED BY A DIRECTOR.)

6. UPDATE ON POTENTIAL SAN JUAN CAPISTRANO UTILITIES
   CONSOLIDATION

7. UPDATE ON WATER POLICY DINNER

8. PUBLIC AFFAIRS ACTIVITIES REPORT

9. SCHOOL PROGRAM PARTICIPATION REPORT
   a. Elementary
   b. High School

OTHER ITEMS

10. REVIEW ISSUESRELATED TO LEGISLATION, OUTREACH, PUBLIC
    INFORMATION ISSUES, AND MET

ADJOURNMENT

NOTE: At the discretion of the Committee, all items appearing on this agenda, whether or not expressly listed
for action, may be deliberated, and may be subject to action by the Committee. On those items designated for
Board action, the Committee reviews the items and makes a recommendation for final action to the full Board
of Directors; final action will be taken by the Board of Directors. Agendas for Committee and Board meetings
may be obtained from the District Secretary. Members of the public are advised that the Board consideration
process includes consideration of each agenda item by one or more Committees indicated on the Board
Action Sheet. Attendance at Committee meetings and the Board meeting considering an item consequently is
advised.

Accommodations for the Disabled. Any person may make a request for a disability-related modification or
accommodation needed for that person to be able to participate in the public meeting by telephoning Maribeth
Goldsby, District Secretary, at (714) 963-3058, or writing to Municipal Water District of Orange County at P.O.
Box 20895, Fountain Valley, CA 92728. Requests must specify the nature of the disability and the type of
accommodation requested. A telephone number or other contact information should be included so that
District staff may discuss appropriate arrangements. Persons requesting a disability-related accommodation
should make the request with adequate time before the meeting for the District to provide the requested
accommodation.
Municipal Water District of Orange County, California  
Washington Update  
July 12, 2016

Congress on the eve of their summer break:

**Appropriations:** With the Congress set to recess at the end of this week for the Presidential Nominating Conventions and for the August break, both the House and the Senate are busy dealing with various appropriations issues.

On the House Side, the House is on track to pass a $32.1 billion bill to fund the Interior Department and EPA. If all goes according to plan later this week, it will mark the first time the House has passed this particular spending bill since 2009, when Democrats were still in control. This has been a particularly difficult bill to pass. Last year the bill was pulled from the House Floor amid controversy over the Confederate flag.

The House Rules Committee will decide which of the 172 filed amendments will receive floor votes this week. At press time the floor debate was to begin later this afternoon on this bill with final passage expected later this week.

The Senate is also expected to consider the Defense Appropriations bill again this week. Last week, Senate Democrats filibustered the Defense Bill indicating that they would try and block all spending bills unless there was parity between defense and non-defense spending (read here discretionary or social program spending) and that Democrats did not want to advance spending bills which contained what the Democrats have referred to as “poison bill” policy riders.

Both the House and the Senate are likely to pass another Continuing Funding Resolution (CR) in September that will keep the federal government running until the post-election December period or perhaps as late as early next year.

The House has passed 10 funding bills through the full House Appropriations Committee and the Senate has passed all 12 funding bills through its Appropriations Committee. Each body has had a very difficult time passing their bills through their respective House and Senate Floors.

This year three issues have dominated much of the floor debates—the amount of federal funding for fighting the Zika Virus, the “no fly—no buy-gun control language” and language that protects the
LGBT employees of federal contractors from discrimination.

Not one of the twelve funding bills has cleared both Houses of Congress this summer. The deadline to complete these bills is September 30, 2016, the end of the current fiscal year. Hence, the strategy behind the passage of a Continuing Funding Resolution which is very likely to be passed sometime in September.

**Drought Update:**

Congressman Valadao’s California Drought Relief Legislation, HR 5055, has either passed the full House of Representatives or is located in five different legislative vehicles shown below:

1. HR 5055, The House Passed Valadao Bill.
2. Key legislative language taken out of the Valadao Bill at the request of the Majority Leader Kevin McCarthy dealing with the “Operations” or movement of water through the Delta – region and placed in the Energy and Water Appropriations Bill.
3. Again, key legislative language taken out of the Valadao Bill, again by Majority Leader McCarthy dealing with the “Operations” or movement of water through the Delta region and placed in the Interior/EPA Appropriations Bill.
4. The Valadao Drought Bill was placed into the House’s version of the National Energy Policy Bill, S 2012. This legislation was overwhelmingly passed in both the House and the Senate. The legislation will now be considered in a House / Senate Conference Committee.
5. Portions of the Valadao bill were also placed in the House Commerce State Justice Appropriations Bill.

While matters are still very fluid at this time, it appears that the Senate Energy Bill Conference may be the place where the drought issues may be resolved this year. Conferees are slated to be named to this Conference Committee this week. Though Senator Feinstein is not a member of the Senate Energy Committee, there is precedent for her to nevertheless be named as Conferee to the Conference. Senator McConnell appointed a Republican who was not a Member of the Senate Energy Committee, Senator Cornyn of Texas.

As far as background, Senator Feinstein introduced her Drought Relief Bill earlier this year and there was a Senate hearing on her legislation as well as other water bills affecting other states. However, her bill has never been advanced to a Senate Energy Committee Markup because there were likely not enough votes to have her bill clear the Committee. Her bill had problems with too much spending from some the Republican Senators and she has been unable to date to receive support on her legislation from the Ranking Democrat of the Committee, Senator Cantwell. Because her bill has failed to pass through the Senate Energy Committee, it will likely not be considered as a separate bill on the Senate Floor this year.

MWDOC representatives have been working closely with key personal and committee offices in both the House and the Senate to try and advance language which will allow more water to flow south through the Delta region.
**Obama Administration Drought Related Activities:**

The U.S. Department of Interior’s point man on water, Deputy Secretary Mike Connor, traveled to California last month for a slate of meetings with state officials and water users, as California’s water crisis just keeps getting worse. He introduced the newest incoming Fish and Wildlife Service Regional Director Paul Souza.

The Fish and Wildlife Service has previously indicated that it wanted to increase the amount of water that flows from the Sacramento-San Joaquin River Delta out to sea, in a bid to help Delta smelt, which a recent survey showed are hanging on by a thread. The National Marine Fisheries Service has proposed holding back more water at a key reservoir in the north, to protect cold water salmon. Together, the two proposed actions have further enraged Central Valley farmers and earlier today there was a Hearing held in the House Natural Resources Committee which can be viewed on the Committee website for interested parties.

**“The Water Resources Development Act (WRDA):**

The Water Resources Development Act, known as the WRDA Bill is under consideration in both the House and the Senate. The bill would allow new types of water infrastructure and activities to qualify for EPA's State Revolving Funds, the primary source of federal assistance to communities for water programs. It would also create a number of new grant programs, including grants to help small and disadvantaged communities replace lead service lines, a $100 million authorization for schools to test for lead, and a $50 million annual authorization for innovative water technology grants. WRDA provides authorized spending for the Army Corps of Engineers.

**IRS Treatment of Conservation Measures:**

MWDOC has met with several different offices on this issue, including representatives from Senator Feinstein office and we are advised that at the present time Senator Feinstein and other Senate offices are working with the Obama Administration issue an IRS Waiver on this matter this year. While there are efforts to try and pass bi-partisan legislation down the road, the latest word is that the current fix in play will be an “administrative fix, not a legislative one”.

**Funding Scorecard:**

Please note the attachment of the **Funding Scorecard** for competitive grants as there have been a number of grants released since the last scorecard was shared with you. We have continued to list some grants that have now lapsed for the year—so that Water Districts might be able to anticipate what grants may occur during next year’s grant cycle.
General News Items and Political Updates of Interest

Since our last report, here are the latest polling numbers per “Real Clear Politics Media”*

**June 2016**
- Clinton: 49%
- Trump: 42%

**July 2016**
- Clinton: 45%
- Trump: 41%

*Real Clear Politics takes polling averages from different respected polling organizations over a common period of time in recent days/weeks. These are the most recent figures at press time.

NOTICE: The above list of federal funding opportunities may not represent a complete or exhaustive list of the grants that your organization may be eligible for and/or interested in pursuing. This list is periodically updated and not intended to be exclusively relied on. This list is intended to be a helpful tool. Federal grants are continually released and reported across many different platforms. Potential grantees should themselves continually monitor for federal funding opportunities. Recently closed grants are listed so that the grantee can see what grants may again be available for the grantee in the next cycle. Hyperlinks for closed grants may expire.

Re: Monthly State Political Report

LEGISLATIVE UPDATE

Legislation:

SB 1318 (Wolk): this bill deals with Disadvantaged Unincorporated Communities (DUC’s) and sought to prevent LAFCOs from approving an annexation or extension of services unless adjacent DUC’s where addressed. This bill was brought before the PAL committee in May where an “oppose” position was adopted. Just prior to the June PAL meeting, the author indicated that the most objectionable parts of the bill will be deleted. Staff intended to bring the amended bill back to PAL for reconsideration once the amended bill appeared in print, but the author subsequently pulled the bill from committee. Having failed to pass out of the policy committees by the deadline, the bill is now dead.

SB 163 (Hertzberg): as amended June 8, 2016, would find and declare that it is a waste and unreasonable use of water to discharge treated wastewater from an ocean, or bay outfall or for a water supplier or water replenishment district to refuse to accept treated wastewater for groundwater recharge, surface water augmentation or landscape irrigation purposes, and would require that at least 50% of all treated wastewater be beneficially reused by 2033. Although there was a flurry of activity on this bill in late June, the author pulled the bill from committee after the second time it had been set for a hearing, which followed a hearing the prior week where testimony was taken and the author committed to amend the bill and bring it back for a vote. Since the bill failed passage as a result of being pulled, it is now dead.

SB 1298 (Hertzberg): this bill would attempt to legislatively define key terms from Proposition 218 (1996) to allow water districts to establish lifeline rates, tiered conservation pricing, and allow stormwater management to be included within the preexisting definition of sewer service. Staff recommended an oppose position because the legal standing of the lifeline and tiered pricing provisions were highly suspect, and would likely lead to pressure on water districts to adopt consistent pricing structures despite the risk of litigation.

Subsequent to the previous PAL Committee meeting, the author announced that he would limit the bill to the provisions on stormwater management, which removes the reasons for the recommendation to oppose the bill. While there was widespread agreement that the lifeline and tiered pricing provisions of the bill were unconstitutional, it is not so clear that the stormwater provisions would be struck down by the courts. The reason is that the definition of “sewer service” comes from case law, not the Constitution. That said, the fact that the bill would no
longer be clearly unconstitutional is not an adequate basis for staff to recommend that opposition be removed. ACWA will continue to seek clarifying amendments, and will remove its opposition if they are accepted, but the stormwater provisions are mainly the concern of the League of Cities which will now take the lead on the bill. Although not set for a hearing at this time, the bill will likely be heard in the Assembly Appropriations Committee the first week of August.

Legislature:

The Legislature has been on recess since July 1st and will return August 1st. The only highlight worth noting was the adoption of the budget, and the lack of attempt to include water policy issues of concern in budget trailer bills, although there is still one resource budget trailer bill to watch. Budget highlights include ongoing concern over the lack of revenues from Cap and Trade auctions, which meant no new expenditures from the discretionary revenues, $4.5 million for Delta smelt habitat improvement, and $4.5 million for DWR and SWRCB to coordinate efforts to review and update local water shortage contingency plans.

Agencies:

SWRCB met on 6/22 to notice the draft regulations on the proposed fee changes to the Drinking Water Program and accept testimony. BB&K testified on behalf of MWDOC to support the alternative proposal drafted by ACWA. Conversation with staff before and after the hearing, as well as comments from board members during the hearing, indicated that the ACWA alternative was favorably received. Follow up conversations with SWRCB staff suggest the alternative will be adopted with minor changes, namely a fee cap for disadvantage communities (in addition to the cap already proposed for severely disadvantage communities) to be offset by a slightly higher fee for the top tier rate proposed by ACWA.

Additional activities on behalf of MWDOC:

Attended the ACWA lobbyist meeting on 6/24, and the ACWA State Legislative Committee meeting on 7/8.
**The County of Orange Report**

July 12, 2016
by Lewis Consulting Group

**Will Supervisor Term Limits Appear on November Ballot?**

County Supervisors are debating a last ditch effort to place NEW Term Limits before the voters in the 2016 November election.

Under current law, County Supervisors are termed-out of office after serving two full terms of eight consecutive years. However, Supervisors can “sit out” for a period of time and attempt to return to the Board. Todd Spitzer, for example, has had “two bites of the apple” as a Board member.

Now some on the Board are proposing extending the eight years to a twelve year limit, but in exchange for the four extra years on the Board, there would be a life time limit, thus closing the “revolving door” loophole of the current policy.

There is a lot of intrigue concerning this measure because it will positively or negatively affect many prominent Orange County politicians.

State Senator and former County Supervisor John Moorlach had previously pushed this reform and although its passage would limit his opportunity to serve again on the Board of Supervisors, he is championing this reform.

At the last minute this agenda item was deleted from the July 12, 2016 Board agenda. The matter will be decided one way or the other at the Board’s July 26th meeting; the last meeting in which a matter can be voted on by the Board of Supervisors and placed on the November ballot.

**Last Word on June Primary - Choi Edges Out Sudhu for Second Place in A.D.**

With all of the ballots finally counted, Irvine Mayor Steve Choi narrowly out-pollled former Anaheim City Councilman Harry Sidhu for the right to advance to November’s top-two runoff. Because of the overwhelmingly Republican tilt to the 68th Assembly District, Choi is the prohibitive favorite to defeat Democrat Sean Jay Panahi in November. Choi’s final margin of victory over third place Sidhu was 154 votes. The other competitive candidate, former Villa Park Councilwoman Deborah Pauly finished fourth, trailing Sidhu by 5,600 votes.
Sanchez Underdog Heading to November

In a statewide poll unveiled July 8, 2016, the California Field Poll released results showing California Attorney General Kamela Harris with a 15 point lead over Orange County Congresswoman Loretta Sanchez. With a 39%-24% advantage, Harris leads by 21 points among Democrats, 12 points among Republicans and 5 points among all other voters. Harris holds a commanding 47%-20% lead in the Northern California Bay Area. Sanchez is losing by 8 points in the Central Valley, 12 points in Los Angeles County and 14 points in the rest of Southern California.

The only two demographic groups Sanchez is carrying are Latino voters by 49%-24% and voters 18-39 in age; 32%-26%. The survey was conducted June 8 - July 2, 2016, with a 1,635 sample and yields a margin of error of +/- 3.2% and a 95% confidence level.

Making matters even worst for Sanchez is the huge financial lead Harris enjoys as well.

Orange County Mourns Marian Bergeson R.I.P.

The well deserved tributes and accolades are still pouring in; on Wednesday, July 6, 2016 Orange County lost a legend. Marian Bergeson was a political pioneer, a barrier breaker and a leader. She was also gracious and as accommodating as possible.

Marian was elected to the State Assembly in 1978; she was the first woman in California history to serve in both the State Assembly and the State Senate. Marian preceded me to the Assembly by two years and she was more gracious and helpful than a 26 year old Freshman had a right to expect.

When Marian talked on an issue she did it with gusto. I remember Marian crusaded to index the California income tax — not a popular issue with “tax hungry” liberals — but her tenacity persevered and taxpayers won!

As chairman of the Local Government Committee, she often knew the proposed legislation better than the bill’s author. When she suggested amendments, you accepted them.

On a personal note, both of my children were born while we were legislative colleagues. Over the years, every time we ran into each other she would always ask about James and Jennie.

Good-bye Marian . . . you are missed.
Fare ‘El Ho-La

It’s official! It may be small but La Niña is here and El Niño is yesterday’s news.

The departure of El Niño leads us to speculate as to the effect on California rainfall. Usually El Niño means more rain but at its height earlier this year, Southern California was shortchanged. Perhaps La Niña will continue the confusion and bring unexpected rain later next year.

One thing is clear however. The dissipation of this powerful El Niño is bringing about a rapid plummet in worldwide temperatures. At its peak El Niño drove tropospheric temperatures to over .8 degrees above the 30 year base (1981-2010) average. Pacific Ocean temperatures overall and Niña conditions more specifically can dramatically affect worldwide weather patterns and average temperatures. In the last two months, average worldwide temperatures have dropped by .55 degree C. This is the second largest two month drop of the 37 year satellite temperature record.
Legal and Regulatory

July 18, 2016

1. **Drought Update:** The US Drought Monitor announced this month that 60% of the state is in severe drought as compared to 95% last year. They are predicting a 75% chance of La Nina forming this year which will produce less rainfall than normal. Even though we experienced good results from El Nino, which equated to a normal amount of moisture for the season. Scripps Institute is predicting a few more years of drought conditions.

2. **Water Use Drops:** Urban water use statewide dropped over 28% this year compared to prior years. People in California are taking the drought seriously and changing their life styles. Some are questioning the Water Boards relaxation of conservation standards and sending a mixed message to those folks who have done an excellent job of saving water. The jury is still out on whether or not people will continue to save water or go back to the old days. The good news is that many districts have made significant investments in storage and diversification which will help them in the long run.

3. **New Underground Water Supply:** Stanford researchers, with the help of some of our UCI Professors, have discovered a large underground reservoir in the Central Valley. It is estimated to hold 713 trillion gallons of water. It is located between 1000 and 3000 feet beneath the Valley floor. Everyone is cautioning not to jump to the conclusion that this is the solution to our water needs. Subsidence is already a big issue in the Valley and tapping into this newly discovered source may make that problem worse. Also the quality of this water is questionable. It has been down there for a long time and probably contains mixture of natural and manmade pollutants. Research will continue and science will develop that may someday make this new discovery usable.

4. **Judge Invalidates Delta Plan:** Last month, a Superior Court Judge turned the comprehensive Delta management plan approved by the Delta Stewardship Council in 2013 upside down. Since the Plan was approved, multiple suits have been filed by various stakeholders. The Judge dismissed most of the claims but sided with the environmentalists on this one. The State has indicated they will appeal but in the meantime, this will further delay the twin tunnels and Delta fix previously approved. The main objection to the plan was that failed to promote other options for water conveyance and storage. Sound familiar??

5. **Agency Response to No State Mandate:** As we continue to see, agencies are responding differently to the State Boards replacement of the conservation mandates with stress test
guidelines. LA DWP, Coachella Valley, Long Beach and many others are dropping all or most of their conservation rules and stating that they will meet the guidelines contained in the stress test (basically adequate supplies for the next three years). DWP is maintaining their gallons per day per capita goals. Other areas such a Ventura depend 100% on local sources and are keeping their 16% conservations targets.

6. **Sonoma County Good:** Lake Sonoma, the region’s largest reservoir, is 96% full. Lake Mendocino is 77% full. These two reservoirs supply over 600,000 residents in this North Bay region. For the first time in many years, there is water in the Russian River and boaters and beach goers are taking advantage of it. Adjoining water agencies have rescinded most of the mandatory conservation curbs. This area is not part of California’s system that relies on the Sierra snowpack. They must take care of themselves and thanks to El Nino, they have.

7. **Low Lake Mead & California:** Nearly one half of the State’s population relies in whole or in part on water from the Colorado River which flows through Lake Mead. The Lake’s historic low level of 1075 feet is causing concern as cutbacks to neighboring states may start. If the level hits 1020 feet, the Department of Interior will seize control of allocations. The question arises as to what happens to California. Fortunately, the Colorado Compact of 1922 protects California allocations until the Lake reaches 1020 feet. Up to that depth, Nevada and Arizona get cut back first. That protection ends at 1020 feet however. Negotiations have been ongoing for years to reconsider allocations before and after the 1020 level. But presently, California’s rights are intact. These debates are distinct from the fact that the Colorado River is over allocated.

8. **Snowpack Down:** The California snowpack cycle is down but not out. Forecasters are now saying that it will take until 2019 for our snowpack to return to normal. Scientific modeling is being used to compare our drought years, the impact of El Nino, runoff and absorption rates, La Nina predictions and other distinct factors. Usually, snow packs recover more quickly than the 3 years estimated but the number of years of continuous drought impacts the recovery rate of the snowpack. The main researcher in this study is from UCLA. You can see that we have a lot of water talent locally.

9. **Limit Small Water Systems??:** Under current California law, it is fairly easy to set up a separate small water system. This is common in rural areas for small farms or housing developments. A bill has been proposed SB 1263 to make this more difficult. As you may guess, the environmental groups are supporting and the agriculture, business and homeowners are opposing. Stay tuned.

10. **Yolo Recharge:** Yolo County used advanced planning and the March miracle rains to recharge its groundwater aquifer. The County diverted water from Capay Dam into 106 miles of unlined canal. The canal is normally dry but by diverting water into the canal, they were able to recharge
the aquifer. Filling the canals also created surface water for irrigation for their farm population. This diversion required State approval and cooperation among numerous adjoining water agencies. The project was a huge success and will be used again in the future when water is available.

11. **Groundwater Law Round 2:** California’s new groundwater law requires local agencies to come up with plans to manage local aquifers. If it is not done locally, the State can come in and dictate or seek an adjudicated decision. Paso Robles and the surrounding area has been drawing down their groundwater at a hefty pace. More than 200 wineries in addition to the extensive farming operations had created a great demand for water in the area. So the local stakeholders got together, prepared a plan and submitted it to the voters. 70% of the voters in the Basin area rejected the plan. The reasons for rejection were all over the map, from not wanting another layer of government, let the courts decide, to there is no problem. The campaign was vigorous and nasty. We are waiting to see what happens next. But if no action is taken, the State can take over meaning monitoring wells, charging fees, levying fines. This can be done without stakeholder or voter approval.

12. **Marijuana Water Control:** Pot cultivation requires a lot of water. Currently the crops are being grown with and sometimes without proper water authority and process control. Streams are being depleted, fish endangered, water polluted. Marijuana growing may be the number one high value crop presently being grown in the State. SB837 recently passed and signed by the Governor will place significant restrictions on water usage for the industry. The bill addresses water rights, flow control, water quality and many other aspects of the new industry. Most interesting is the fact that the pot growers support the legislation. There are probably many reasons including the some pot farmers are legal and above board, while other are still underground. This is the first such law in the US even though other states have legalized pot usage if one form or the other. With many marijuana measures headed for the ballot in November, this will be an interesting subject to follow.
A. Priority Support/Oppose

**AB 1755**
(Dodd D) The Open and Transparent Water Data Act.
Current Analysis: 06/24/2016 Senate Senate Natural Resources And Water (text 5/11/2016)
Last Amend: 6/13/2016
Status: 6/29/2016-From committee: Do pass and re-refer to Com. on APPR. (Ayes 8. Noes 0.) (June 28).
Re-referred to Com. on APPR.
Is Urgency: N
Summary: Would enact the Open and Transparent Water Data Act. The act would require the department, by January 1, 2018, to create, operate, and maintain a statewide integrated water data platform that, among other things, would integrate existing water and ecological data information from multiple databases and provide data on completed water transfers and exchanges. This bill contains other existing laws.
Laws: An act to add Part 4.9 (commencing with Section 12400) to Division 6 of the Water Code, relating to water data.

**AB 2022**
(Gordon D) Advanced purified demonstration water.
Current Text: Amended: 3/31/2016  pdf  html
Current Analysis: 06/13/2016 Senate Senate Environmental Quality (text 3/31/2016)
Last Amend: 3/31/2016
Is Urgency: N
Summary: Would authorize the operator of a facility producing advanced purified demonstration water, as defined, to cause that water to be bottled and distributed as samples for educational purposes and to promote water recycling. The bill would prohibit the advanced purified demonstration water from being distributed unless the water meets or is superior to all federal and state drinking water standards. The bill would authorize advanced purified demonstration water to be bottled at a licensed water-bottling plant in compliance with specified provisions.
Laws: An act to add Section 13570 to the Water Code, relating to water.
Position   Priority
Support   A. Priority
Suport/Oppose

Notes 1:  Moving with unanimous support so far.

AB 2488  
(Dababneh D)  Protected species: unarmored threespine stickleback: taking or possession.
Current Analysis: 06/10/2016 Senate Senate Natural Resources And Water  (text 6/9/2016)
Last Amend: 6/21/2016
Status: 6/21/2016-From committee chair, with author's amendments: Amend, and re-refer to committee.
Read second time, amended, and re-referred to Com. on APPR.
Is Urgency: N
Summary: Would permit the Department of Fish and Wildlife to authorize, under the California Endangered Species Act, the take of the unarmored threespine stickleback (Gasterosteus aculeatus williamsoni) attributable to the periodic dewatering, inspection, maintenance, modification, or repair of the Metropolitan Water District of Southern California's Foothill Feeder water supply facility from Castaic Dam to the Joseph Jensen Treatment Plant in the County of Los Angeles, as specified, if certain conditions, including the adoption of an adaptive management process, are satisfied.
Laws: An act to amend Section 5515 of, and to add Section 2081.10 to, the Fish and Game Code, relating to fish.

Position   Priority
Support   A. Priority
Suport/Oppose

AB 2909  
(Levine D)  Water: transfer or exchange: expedited review.
Current Analysis: 06/24/2016 Senate Senate Natural Resources And Water  (text 6/21/2016)
Last Amend: 6/21/2016
Status: 6/30/2016-From committee: Amend, and do pass as amended and re-refer to Com. on APPR.
(Ayes 8. Noes 0.) (June 28).
Is Urgency: N
Summary: Would require the State Water Resources Control Board to develop and implement an expedited 30-day review process for approval of petitions to temporarily change the point of diversion, place of use, or purpose of use due to a transfer or exchange of water or water rights if the transfer is for a reoccurring water transfer, as defined, or an environmentally beneficial transfer, as defined. The bill would require the Department of Water Resources to develop a 30-day review process for reoccurring water transfers between contractors for State Water Project water and for reoccurring water transfers that utilize facilities of the State Water Project. The bill would repeal its provisions as of January 1, 2022.
Laws: An act to add Section 1733 to the Water Code, relating to water.

Position   Priority
Support   A. Priority
Suport/Oppose

Notes 1:  This bill is a successor to AB 2304 on water transfers. Staff is recommending support and the bill is on the PAL Committee agenda for 7/18.

SB 814  
(Hill D)  Drought: excessive water use: urban retail water suppliers.
Current Analysis: 06/27/2016 Assembly Appropriations  (text 6/21/2016)
Last Amend: 6/21/2016
Status: 6/30/2016-Read second time. Ordered to third reading.
Is Urgency: N
Summary: Would declare that during prescribed periods excessive water use by a residential customer
in a single-family residence or by a customer in a multiunit housing complex, as specified, is prohibited. This bill, during prescribed periods, would require each urban retail water supplier to establish a method to identify and discourage excessive water use. This bill would authorize as a method to identify and discourage excessive water use the establishment of a rate structure that includes block tiers, water budgets, or rate surcharges over and above base rates for excessive water use by residential customers. Laws: An act to add Chapter 3.3 (commencing with Section 365) to Division 1 of the Water Code, relating to water.

<table>
<thead>
<tr>
<th>Position</th>
<th>Priority</th>
</tr>
</thead>
<tbody>
<tr>
<td>Opposition</td>
<td>A. Priority</td>

</tbody>
</table>

Notes 1: Although still an unnecessary mandate on water agencies, the more objectionable provision have been removed. Member agencies are pursuing amendments.

**SB 919**  
(Hertzberg D) Water supply: creation or augmentation of local water supplies.  
Current Text: Amended: 5/31/2016  
Current Analysis: 06/24/2016 Assembly Water, Parks And Wildlife  
Last Amend: 5/31/2016  
Status: 6/28/2016-From committee: Do pass and re-refer to Com. on APPR. with recommendation: To consent calendar. (Ayes 15. Noes 0.) (June 28). Re-referred to Com. on APPR.  
Is Urgency: N  
Summary: Would require the Public Utilities Commission, before January 1, 2018, in consultation with the Independent System Operator, to address the oversupply of renewable energy resources through a tariff or other economic incentive for electricity purchased by customers operating "facilities that create or augment local water supplies," as defined, to reduce the cost of electricity to those facilities. This bill contains other related provisions and other existing laws.  
Laws: An act to add Section 711 to the Public Utilities Code, relating to water supply.

<table>

Notes 1: Watched due to potentially serious concerns by retail agencies over contamination of potable water. Not moving at this time.

**AB 1587**  
(Mathis R) Groundwater.
Current Text: Amended: 4/14/2016   pdf   html  
Current Analysis: 04/25/2016 Assembly Appropriations  (text 4/14/2016)  
Last Amend: 4/14/2016  
Status: 5/27/2016-Failed Deadline pursuant to Joint Rule 61(b)(8). (Last location was APPR. SUSPENSE FILE on 4/27/2016)  
Is Urgency: N  
Summary: Would, in implementing the competitive grants for projects that develop and implement groundwater planning requirements, require special consideration be given to those projects that would create groundwater recharge basins in areas of fallow farmland. This bill would appropriate $50,000,000 from the proceeds of the bond act for the purpose of that competitive grant program.  
Laws: An act to add Section 79776 to the Water Code, relating to groundwater, and making an appropriation therefor.  

Position | Priority  
--- | ---  
B. Watch  

Notes 1:  Watched due to possible impacts to groundwater management of member agencies. Significant opposition in committee on 4/12.

AB 1588  
(Mathis R) Water and Wastewater Loan and Grant Program.  
Current Analysis: 06/27/2016 Senate Senate Environmental Quality  (text 6/15/2016)  
Last Amend: 6/15/2016  
Status: 6/30/2016-From committee: Do pass and re-refer to Com. on APPR. (Ayes 7. Noes 0.) (June 29). Re-referred to Com. on APPR.  
Is Urgency: Y  
Summary: Would require the State Water Resources Control Board to establish a program to provide funding to counties to award low-interest loans and grants to eligible applicants for specified purposes relating to drinking water and wastewater treatment. This bill would authorize a county to apply to the board for a grant to award loans or grants, or both, to residents of the county, as prescribed. This bill would create the Water and Wastewater Loan and Grant Fund and provide that the moneys in this fund are available, upon appropriation by the Legislature, to the board to administer and implement the program.  
Laws: An act to add Chapter 6.6 (commencing with Section 13486) to Division 7 of the Water Code, relating to water, and declaring the urgency thereof, to take effect immediately.  

Position | Priority  
--- | ---  
B. Watch  

Notes 1:  Potential benefit to water infrastructure projects, but 2/3rds vote required. Not impossible since the bill creates a loan program, but fate will be determined by concerns beyond the bill itself.

AB 1749  
(Mathis R) California Environmental Quality Act: exemption: City of Porterville.  
Current Analysis: 06/30/2016 Senate Senate Environmental Quality  (text 6/15/2016)  
Last Amend: 6/15/2016  
Status: 7/1/2016-Failed Deadline pursuant to Joint Rule 61(b)(13). (Last location was E.Q. on 6/29/2016)  
Is Urgency: N  
Summary: Would, until January 1, 2021, exempt from the California Environmental Quality Act's requirements a water treatment project determined by the City of Porterville as the best option based on a certain feasibility study, as provided. This bill contains other related provisions.  
Laws: An act to add and repeal Section 21080.06 of the Public Resources Code, relating to environmental quality.  

Position | Priority  
--- | ---  
B. Watch  

Notes 1:  This bill proposes a CEQA exemption. Pulled from committee twice. Will prepare
recommendation if there is any possibility of it moving.

**AB 2348**  
(Levine D) Department of Finance: infrastructure investment.  
Current Analysis: 06/27/2016 Senate Senate Governmental Organization (text 5/27/2016)  
Last Amend: 5/27/2016  
Status: 6/28/2016-From committee: Do pass and re-refer to Com. on APPR. (Ayes 10. Noes 3.) (June 28). Re-referred to Com. on APPR.  
Is Urgency: N  
Summary: Would authorize the Department of Finance to identify infrastructure projects in the state for which the department will guarantee a rate of return on investment for an investment made in that infrastructure project by the Public Employees' Retirement System. The bill would create the Reinvesting in California Special Fund as a continuously appropriated fund and would require the moneys in the fund to be used to pay the rate of return on investment. The bill would require the rate of return on investment to be subject to the availability of moneys in the fund.  
Laws: An act to add Section 13314 to the Government Code, relating to state government, and making an appropriation therefor.

**SB 20**  
Pavley D) Low Carbon Fuels Council.  
Current Text: Amended: 6/20/2016 [pdf][html]  
Current Analysis: 06/29/2016 Assembly Natural Resources (text 6/20/2016)  
Last Amend: 6/20/2016  
Status: 6/30/2016-ASM. NAT. RES. Vote - Do pass as amended and be re-referred to the Committee on Appropriations.  
Is Urgency: N  
Summary: Would create the Low Carbon Fuels Council, as specified, which, among other things, would coordinate state agencies' activities that are related to the acceleration and development of the instate production of low carbon fuels.  
Laws: An act to add Article 7 (commencing with Section 43890) to Chapter 4 of Part 5 of Division 26 of the Health and Safety Code, relating to vehicular air pollution.

Notes 1: The author has indicated that she will not pursue a public goods charge in this bill or any other.  
Notes 2: Could affect potential funding sources for water infrastructure projects. ACWA is opposed.

**SB 1340**  
Last Amend: 6/21/2016  
Status: 6/30/2016-From committee: Do pass and re-refer to Com. on APPR. (Ayes 5. Noes 3.) (June 29). Re-referred to Com. on APPR.  
Is Urgency: N  
Summary: The Water Conservation in Landscaping Act requires the Department of Water Resources to update a specified model water efficient landscape ordinance by regulation and prescribes various requirements for the updated model ordinance. Current law requires each local agency to adopt either the updated model water efficient landscape ordinance or an ordinance that is at least as effective in conserving water as the updated model ordinance. If the local agency does not make a selection, the model ordinance shall apply within the jurisdiction of the local agency. This bill would allow the governing body of a local agency to adopt an ordinance prescribing fees for filing an application for the
permit, subject to the restrictions that the fees not exceed the amount reasonably required to review applications and issue the permits and that the fees not be levied for general revenue purposes.

Laws: An act to amend Section 65595 of the Government Code, relating to water conservation.

SUBJECT: High School Education Program Review

STAFF RECOMMENDATION

Staff recommends the Board of Directors receive and file report

COMMITTEE RECOMMENDATION

Committee recommends (To be determined at Committee Meeting)

DETAILED REPORT

The 2015-16 school year was the first for the MWDOC high school education program, which is a CHOICE offering.

MWDOC holds a three-year contract the OC Department of Education’s Inside the Outdoors program. The first year saw more than 33,005 students participate and 125 teachers undergo the teacher training. The cost was $96,000, paid by participating agencies.

Based on feedback from Directors, member agencies and the education staff at the Metropolitan Water District of Southern California, MWDOC plans several additions to the program this year.

Public Affairs Manager Jonathan Volzke will review the first year and offer details on second-year changes in a presentation.

High School Water Education Program

July 2016

Municipal Water District of Orange County

Program History

The Municipal Water District of Orange County entered in an agreement on July 1, 2015 with the Orange County Superintendent of Schools for Inside the Outdoors (ITO) to administer a Water Education School Program in Orange County high schools. Inside the Outdoors subcontracted with The Ecology Center. The contract is for three years at a cost of $80,000 a year, with a 3 percent annual increase.

The program was to include:
• Classroom Visits by ITO staff
• School Wide Expos
• Digital Platform
• Teacher Training Sessions
Goals

Original Goal = 10 schools
2015-16 School Year = 14 schools
Member Agencies Participated = 13
Students Served = 33,005 students received water education
Teacher Workshops = 125 teachers
Water Summit Student Events = 362 students attended

Key Concepts Taught

First Student School Visit
- Intro to The Water Effect and the agencies involved
- How/Why to connect with online platform
- Why Water: local watershed, local water sources, water footprint, water efficiencies
- Local Water Issues
- Introduce School Water Audit
- Importance of California WaterFix

Second Student School Visit
- Review School Water Audit: biggest issues, solutions
- Discuss how students can help at school, community
- Brainstorm Expo Station Ideas
- Design a campaign for change on the school campus
Student Expos

Water Expo Topics:
- Member Agency Involvement
- Watershed Enviroscape Model
- Ways to reduce, reuse, rethink water use
- Water footprint hamburger
- School audit data
- Conservation demonstrations
- Native garden/drought tolerant plants
- Wheel of Knowledge/Trivia Water conservation pledges
- CA State Water Project (SWP)
- Student-driven station(s)

Teacher Support

- Teachers received The Water Effect - Teacher Training Toolkit at ITO facility
- Digital/online resources were available to teachers
- Brea Olinda High School teacher Andrea Ramos won the OC Cox Conserves Hero. Her work on The Water Effect program was among reasons cited
Going Forward

New elements for the program will be incorporated this year, based on feedback from Directors, participating agencies and Metropolitan Water District of Southern California (MET) education staff. These include:

- Student Water Policy Forum - a forum for individual schools to discuss water policies with industry experts.
- Regional Policy Forums - regional forums coordinated with member agencies during which students can discuss water policies with local water leaders and industry experts.
- A year-end “water summit” with students from throughout Orange County.

MWDOC staff is meeting with MET staff on July 21 to coordinate the programs to the extent possible.

Going Forward

In addition to the MET coordination, MWDOC staff and member agencies are working on additional elements. These include:

- Water Career Night
- Coordination with sponsorship of Boy Scout ‘Soil and Water Conservation’ Merit Badge
- Coordination with other MWDOC education efforts
Conclusion

Points of Success:

1. More schools complete than originally anticipated
2. Additional schools joining program for coming year
3. More robust education in coming year/MET coordination
4. Coordination with other MWDOC outreach programs

TO: Board of Directors

FROM: Public Affairs & Legislation Committee
(Directors Barbre, Hinman, Tamaribuchi)

Robert Hunter     Staff Contact: Heather Baez
General Manager

SUBJECT: AB 2909 (Levine) – Water Transfer or Exchange, Expedited Review

STAFF RECOMMENDATION

Staff recommends the Board of Directors vote to adopt a support if amended position on AB 2909 (Levine).

COMMITTEE RECOMMENDATION

Committee recommends (To be determined by committee)

SUMMARY

AB 2909 would require the Department of Water Resources to develop a 30-day expedited review process for reoccurring water transfers. “Reoccurring water transfers” are defined in the bill to mean transfers of one year or less in duration and substantially similar to a transfer approved by DWR within the previous 4 years.

ARGUMENTS IN SUPPORT

According to the author’s office, “Water transfers make up only 3% of all water use in California. Clearly we can do better. It is important that we remove as many barriers to transfers as possible. This bill is a simple step to ensure that where substantially similar transfers have been completed before they do not have to go back to square one for approval. Additionally, a more nimble response to critical environmental needs is provided.

<table>
<thead>
<tr>
<th>Budgeted (Y/N): n/a</th>
<th>Budgeted amount:</th>
<th>Core x</th>
<th>Choice ___</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Fiscal Impact (explain if unbudgeted):
This will allow for improved efficiency in completing transfers as we move forward and will help us more efficiently distribute water."

ARGUMENTS IN OPPOSITION

Environmental groups and some water districts have raised concerns about specific language regarding the definitions of transfers and the standard to be applied to both reoccurring and environmentally beneficial transfers.

COMMENTS

AB 2909 is the successor to AB 2304 by the same author. AB 2304 included provisions to create a water transfer market exchange and an Internet database for information related to water transfers. That bill drew significant opposition. AB 2909 was originally a bill related to parks and wildlife, but was amended in late June to address expedited water transfers and to create a water transfer task force. The purpose for the gut-and-amend was to remove opposition arguments against AB 2304 from agricultural interests within ACWA.

The first version of AB 2909, which never appeared in print but was circulated within the water lobbying community in Sacramento, included the water market task force, and expedited review for reoccurring water transfers and transfers intended to provide environmental benefits. The task force provisions were deleted at the request of ACWA, and the provisions relating to environmental transfers were deleted, ironically, at the request of environmental interests. The author also took technical amendments from MWD.

The current bill is now supported by ACWA and no opposition is expected.

DETAILED REPORT

The full “expected” text of AB 2909 is attached although the print version was not available at the time this agenda was prepared. Staff will email the “print version” once it has been posted.
SECTION 1.

Section 1733 is added to the Water Code, to read:

1733. (a) For the purposes of this section:

(1) “Environmentally beneficial transfer” means a transfer that does not negatively impact an ecosystem’s health or local drinking water supply in the source area and includes any of the following:

(A) A transfer between water users that is designed to benefit the environment.

(B) A transfer that protects habitat and sensitive wildlife or enhances managed wetland supply, wildlife refuges, ecosystems, and instream flow.

(C) A transfer that benefits local drinking water supplies by reducing local groundwater overdraft or improving water quality.

(D) A transfer that contributes to the implementation of the Sustainable Groundwater Management Act (Part 2.74 (commencing with Section 10720) of Division 6).

“Reoccurring water transfer” means a transfer of one year or less that is substantially similar in volume, time of year, and hydrologic conditions to a transfer previously approved by the department or the board in the past 48 months.

(b) The board shall develop and implement an expedited 30-day review process of up to 30 days for approval of petitions to temporarily change the point of diversion, place of use, or purpose of use due to a transfer or exchange of water or water rights if the transfer is for a reoccurring water transfer or an environmentally beneficial transfer. This up to 30-day review period will be concurrent for all approvals. Nothing in this section shall limit the public comment period required in subdivision (f) of Section 1726.

(c) The department shall develop and implement an expedited review process of up to 30 days a 30-day review process for reoccurring water transfers and exchanges between contractors for State Water Project water and for reoccurring water transfers that utilize facilities of the State Water Project. This up to 30-day review period will be concurrent for all approvals.

(d) Transfers under this section shall not alter the priority for use of conveyance facilities.

(e) This section applies in addition to any other law relating to water transfers or exchanges.

(f) This section shall remain in effect only until January 1, 2022, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2022, deletes or extends that date.

SUBJECT:    ISDOC OFFICER ELECTIONS

STAFF RECOMMENDATION

Staff recommends the Board of Directors determine if a member of the MWDOC Board would like to be nominated as a candidate for the ISDOC Executive Committee.

COMMITTEE RECOMMENDATION

Committee recommends (To be determined at Committee Meeting)

SUMMARY

The Independent Special Districts of Orange County (ISDOC) is holding its bi-annual officer elections via mail in September 2016. An official Notice of Election & Call for Candidates was recently distributed to all member districts. That notice is attached for your reference.

Per the ISDOC Bylaws, officials who wish to seek election/appointment as an officer of ISDOC must first secure from their district an official endorsement in the form of a board resolution. In accordance with these Bylaws, the MWDOC Board must endorse a Director’s candidacy through Resolution of the Board.

Nominations for the ISDOC Executive Committee close on August 19 and all Board resolutions must be received at that time. Following this deadline, the ISDOC nominating committee will evaluate all candidates and release a recommended slate of candidates. The slate of candidates will be announced and official ballots will be mailed to all ISDOC member districts and the full ballot will be brought forth to the Board at that time.

PLEASE DISSEMINATE TO ALL BOARD MEMBERS

This email shall serve as official notice and call for candidates for the positions of President, First Vice-President, Second Vice-President, Third Vice-President, Secretary and Treasurer on the Executive Committee of the Independent Special Districts of Orange County (ISDOC).

Terms of office are for two years, commencing on January 1, 2017.

The election will be by mail ballot during the month of September, and new officers will be announced at the September 29, 2016 general membership meeting.

Nominations will close on August 19, 2016. Any Board Member/Trustee of a regular ISDOC member agency is eligible for nomination to any of the open positions. Individuals who wish to be considered for a position should submit a letter of interest for that position, together with a resolution from their Board authorizing their candidacy.

Responsibilities of the positions are as follows:

PRESIDENT: The President is the chief executive officer of ISDOC. He or she presides at all meetings of the Board of Directors and the Executive Committee; appoint all committees; and represents ISDOC as its official spokesperson.

FIRST VICE PRESIDENT: The First Vice-President chairs the Program Committee, and in the absence of the President, serves as the President.

SECOND VICE PRESIDENT: The Second Vice-President chairs the Membership Committee, and in the absence of the President and First Vice-President, serves as the President.

THIRD VICE PRESIDENT: The Third Vice-President chairs the Legislative Committee, and in the absence of the President, First Vice-President, and Second Vice-President, serves as the President.

SECRETARY: The Secretary is responsible for all correspondence and the dissemination of information to members. The Secretary prepares and distributes agendas and minutes for the Executive Committee meeting and edits and publishes the quarterly newsletter.
TREASURER: The Treasurer maintains ISDOC financial records and bank accounts; collects dues and other receipts; and pays all bills duly approved by the Executive Committee.

Meetings of the Executive Committee typically occur on the first Tuesday of each month at 7:30 a.m. in the offices of the Municipal Water District of Orange County (MWDOC) in Fountain Valley.

If you are seeking nomination to a position on the Executive Committee, please send your letter/email of interest and a copy of your Board's authorizing resolution to Heather Baez at HBaez@mwdoc.com. All nomination requests must be received by August 19.

If you have any questions about any of the positions or the election process, please contact either Heather Baez (HBaez@mwdoc.com) or Leslie Keane (l.keane@occd.com).

SUBJECT: CALIFORNIA SPECIAL DISTRICTS ASSOCIATION (CSDA) 2016 BOARD OF DIRECTORS ELECTION – SOUTHERN NETWORK REGION, SEAT B

STAFF RECOMMENDATION

Staff recommends that the Board of Directors review the candidates and authorize President Osborne, or his designee, to cast the District’s ballot for the CSDA Board of Directors Southern Network, “Seat B.”

COMMITTEE RECOMMENDATION

Committee recommends (To be determined at Committee Meeting)

SUMMARY

CSDA is governed by an 18-member Board of Directors elected by mail ballots. The Board consists of three directors from each of the six networks (Northern, Sierra, Bay Area, Central, Coastal & Southern) throughout California. The Board meets bimonthly in Sacramento to guide the Association’s legislative and member benefit programs.

Each CSDA member in good standing is entitled to vote for one director to represent its network. Ballots must be received at the CSDA office in Sacramento by August 5, 2016.

There are three candidates seeking election to fill Seat B on the CSDA Board of Directors, Southern Network, which includes Imperial, Los Angeles, Orange, Riverside, San Bernardino and San Diego Counties. Seat B is for a two-year term, ending in 2019. Incumbent Bill Nelson, Vice Chair of the Orange County Cemetery District, is seeking reelection to the CSDA Board of Directors where he currently serves as the Board President.

Also running for Seat B is John DeMonaco, Director at the Chino Valley Independent Fire District and Ronald L. Coats, Chairman of the East Valley Water District

Attached is background information on each candidate.

CALIFORNIA SPECIAL DISTRICTS ASSOCIATION

2016 BOARD ELECTIONS

MAIL BALLOT INFORMATION

Dear Member:

A mail ballot has been enclosed for your district's use in voting to elect a representative to the CSDA Board of Directors in your Network for Seat B.

Each of CSDA's six (6) networks has three seats on the Board. Each of the candidates is either a board member or management-level employee of a member district located in your network. Each Regular Member (district) in good standing shall be entitled to vote for one (1) director to represent its network.

We have enclosed the candidate information for each candidate who submitted one. Please vote for only one candidate to represent your network in Seat B and be sure to sign, date and fill in your member district information. If any part of the ballot is not complete, the ballot will not be valid and will not be counted.

Please utilize the enclosed return envelope to return the completed ballot. Ballots must be received at the CSDA office at 1112 I Street, Suite 200, Sacramento, CA 95814 by 5:00 pm on Friday, August 5, 2016.

If you do not use the enclosed envelope, please mail in your ballot to:
California Special Districts Association
Attn: 2016 Board Elections
1112 I Street, Suite 200
Sacramento, CA 95814

Please contact Charlotte Lowe toll-free at 877.924.CSDA or charlottel@csda.net with any questions.
2016 CSDA BOARD CANDIDATE INFORMATION SHEET

The following information MUST accompany your nomination form and Resolution/minute order:

Name: ____________________________________________________________________________

Bill Nelson

District/Company: Orange County Cemetery District

Title: Trustee & Vice Chair of the Board

Elected/Appointed/Staff: Appointed

Length of Service with District: 43 Years

1. Do you have current involvement with CSDA (such as committees, events, workshops, conferences, Governance Academy, etc.):

   CSDA 2016 President. Chair of Fiscal Committee - 2014, Served on the Board for five years, Served on all of CSDA Committees, attended at least 10 CSDA Legislative Days and Annual Conferences, Received Special District Leadership Foundation Recognition in Special District Governance.

2. Have you ever been associated with any other state-wide associations (CSAC, ACWA, League, etc.):

   Board of Directors - California Association of Public Cemeteries 2008 to 2016
   Board of Directors - Institute For Local Government - 2016 to present
   Board of Directors - California Association of Realtors - 2004 to 2012
   Chaired various committees

3. List local government involvement (such as LAFCo, Association of Governments, etc.):

   City Council Member - City of Villa Park - 2014 to present
   Trustee - Orange County Mosquito and Vector Control District - 2016 to present

4. List civic organization involvement:

   Orange County Grand Jury 2002-2003
   Board of Directors - Orange County Grand Jurors Association 2005-2011
   City of Villa Park Investment Advisory Committee - 2008 to 2014 - Chair last two years
   Villa Park Community Services Foundation - Treasurer - 2010 to 2014

**Candidate Statement – Although it is not required, each candidate is requested to submit a candidate statement of no more than 300 words in length. Any statements received in the CSDA office after June 2, 2016 will not be included with the ballot.**
Re-Elect
CSDA President Bill Nelson
To CSDA Board of Directors

PROVEN EXPERIENCE LEADING SPECIAL DISTRICTS

I am committed to building on CSDA’s present foundation of educational programs and legislative advocacy. My enthusiasm, commitment and comprehensive knowledge of special districts bring years of experience to the CSDA Board. It would be an honor to continue serving special districts in the Southern Network.

2016 CSDA BOARD CANDIDATE INFORMATION SHEET
The following information MUST accompany your nomination form and Resolution/minute order:

Name:  John DeMonaco

District/Company:  Chino Valley Independent Fire District

Title:  Director

Elected/Appointed/Staff:  Elected

Length of Service with District:  10 Years

1. Do you have current involvement with CSDA (such as committees, events, workshops, conferences, Governance Academy, etc.):

   I am on the Legislative and Fiscal Committees.

   I have also served on the Education and Membership Committees.

2. Have you ever been associated with any other state-wide associations (CSAC, ACWA, League, etc.):

   I am on the Board of Directors for the Fire Districts Association of California.

3. List local government involvement (such as LAFCo, Association of Governments, etc.):

   N/A

4. List civic organization involvement:

   I am a member and past president of the Rotary Club of Chino.

**Candidate Statement** – Although it is not required, each candidate is requested to submit a candidate statement of no more than 300 words in length. Any statements received in the CSDA office after June 2, 2016 will not be included with the ballot.
I am seeking election to a seat on the Board of Directors of the California Special Districts Association.

I have served on the Board of Directors of the Chino Valley Independent Fire District for ten years, elected in 2006. I am very proud to state that the Fire District is the first fire district to receive the District of Distinction Accreditation from the Special Districts Leadership Foundation (SDLF). We have been a District of Distinction since 2008. We also hold a District of Transparency Certificate of Excellence. I have completed the SDLF Recognition of Special District Governance.

I serve on the CSDA Legislative and the Fiscal Committees. I have previously served on the CSDA Education and Membership committees.

I am a retired Fire Chief with 33 years of Fire Service experience. I have been involved in city, county, JPAs and special districts in various capacities. I am currently on the Board of Directors of the Fire Districts Association of California and also serve on the Conference Committee. I am a Past President of the Chino Rotary Club and the current Chairman of the Chino Rotary Foundation.

I understand, and I am committed to legislative advocacy for special districts. Special Districts provide one of the most effective, efficient, and accountable forms of local service. It is vital that we continue to work together to influence and monitor policy decisions affecting California special districts.

My commitment and extensive experience, education in public service and as a special district board member & policy-maker, provides me with the ability to effectively serve as a CSDA Board Member representing all California Special Districts. I look forward to your support!

If you would like to speak with me, I can be reached at (909) 816-8396 or at jdemonaco@chofire.org

John DeMonaco
2016 CSDA BOARD CANDIDATE INFORMATION SHEET

The following information MUST accompany your nomination form and Resolution/minute order:

Name: Ronald L. Coats

District/Company: East Valley Water District

Title: Chairman of the Board

Elected/Appointed/Staff: Elected

Length of Service with District: 2 Years

1. Do you have current involvement with CSDA (such as committees, events, workshops, conferences, Governance Academy, etc.):

I am proud to be a lifetime member of the CSDA Leadership Foundation. Additionally, I have completed numerous CSDA webinars, including the CIDAC series on local agency finances and investments. Additionally, I have attended annual CSDA conferences.

2. Have you ever been associated with any other state-wide associations (CSAC, ACWA, League, etc.):

I am currently affiliated with ACWA, WateReuse, and AWWA. I have attended every ACWA conference since my election.

3. List local government involvement (such as LAFCo, Association of Governments, etc.):

I am a member of the Association of San Bernardino County Special District’s, serve on both the Citizen’s Oversight Committee for the San Bernardino Community College District (3 years) and the Citizens Oversight Committee for the San Bernardino Unified School District (7 years).

4. List civic organization involvement:

Arrowhead United Way Planning and Allocations and Community Cabinet (15 years), as a member and ambassador of the San Bernardino Chamber of Commerce (17 years), Toastmasters International (10 years), American Legion (34 years), and California Sheriff’s Association (27 years).

**Candidate Statement** – Although it is not required, each candidate is requested to submit a candidate statement of no more than 300 words in length. Any statements received in the CSDA office after June 2, 2016 will not be included with the ballot.
As Chairman of East Valley Water District I take great pride in the opportunity to serve my community. Prior to joining the Governing Board, I was an active public participant, and felt honored when elected in 2014. I firmly believe in the importance of transparent government and public service. With these foundational principles, I look forward to representing this region in a professional manner, as the Southern Network, Seat B, Board of Directors representative for CSDA.

I have had the opportunity to work with a number of organizations through CSDA and believe that we all benefit from interacting and sharing experiences. I am a proud lifetime member of the CSDA Leadership Foundation and have participated in a number of trainings opportunities.

At East Valley Water District, we have made a commitment to good governance and accountability. This is clearly demonstrated through the numerous awards we have received from the Government Finance Officers Association, CAPIO, CalPERS, and even CSDA. But I am proud to be a part of EVWD for more than the awards, they are an organization that delivers. As a performance based agency, we continue to achieve the impossible. Whether it is constructing a headquarters facility ahead of an already tight schedule, implementing budget based rates to provide customers with rate stability during the drought emergency, or developing a succession plan to prepare for the change in our workforce; we set our sights high to enhance the quality of life of this community.

As a CSDA Director, I will bring that passion for good governance and public service. Thank you for your consideration and for allowing me the opportunity to share my experience and perspective. I look forward to serving as a representative on the CSDA Board of Directors.

Sincerely,

Ronald Coats
EVWD Chairman
INFORMATION ITEM
July 18, 2016

FROM: Public Affairs Legislative Committee
(Directors Barbre, Tamaribuchi and Hinman)

Robert Hunter, General Manager               Staff Contact: Jonathan Volzke

SUBJECT: Update on Potential SJC Utilities Consolidation

STAFF RECOMMENDATION

Staff recommends the Board of Directors receive and file report.

COMMITTEE RECOMMENDATION

Committee recommends (To be determined at Committee Meeting)

DETAILED REPORT

The San Juan Capistrano City Council on August 2 is scheduled to review the recommended list of items that should be considered by the Local Agency Formation Commission in determining whether another agency should secure ownership or operations of the city’s utilities.

The city’s Utilities Commission on July 6 approved a list of 12 criteria. “Reliability of Supply” and “Cost/Rate Impact” remain at the top of the list, which also calls for an at-large member of any new agency’s board of directors. Under the proposed criteria, a member of the City Council would retain a seat on the San Juan Basin Authority.

A full list of the recommendations is attached.

Commissioners on July 6 had minor changes. Staff will email a “final” document to Commissioners, who are scheduled to meet again on July 19 if they have any final changes to the final list that will be sent to the City Council.

Francie Kennedy, San Juan Capistrano’s former conservation coordinator, appeared at the last two commission meetings. She advocates forming a new public agency, rather than allowing another agency to run the city’s water utility.

The City has a web page on the potential consolidation, at http://waterstudy.sanjuancapistrano.org/

After its August 2 meeting, the City Council is expected to submit a formal application to LAFCO for a Focused Municipal Services Review.

The city has spent more than $660,000 on the consolidation study under a contract with Brownstein Hyatt Farber Schreck, and the firm’s sub consultants.

The public agencies that have expressed interest in the city’s utilities operations thus far are Irvine Ranch Water District, Moulton Niguel Water District and Santa Margarita Water District.
CRITERIA FOR EVALUATING A POTENTIAL CHANGE IN UTILITY ORGANIZATION FOR THE CITY OF SAN JUAN CAPISTRANO TO A NEW PROVIDER

(Note: all these criteria apply to both potable and non-potable water systems as well as wastewater systems currently owned, operated or planned by the City)

1. **Reliability of Supply**: New Provider will develop a study showing a measurable increase in water supply reliability during periods of drought and/or physical disruption in supply. New Provider’s water study will depict capability to meet water needs of new growth in demand by customers in the San Juan Capistrano service area (the City).

2. **Cost/Rate Impact**: The new Provider will project how current water and wastewater rates for the City and its customers will stabilize. Any adjustments in those rates will be comparable to rate changes of other customers in all service areas of the Provider.

3. **Ownership of Facilities and Assets**: Provider will assume responsibility for all City water and wastewater assets, including drinking water facilities, non-potable water facilities, wastewater facilities, and the GWRP plant and related facilities. Provider assumes all financial, operational, and regulatory liabilities associated with operating those assets including debt service.

4. **Water and Capacity Rights**: City will transfer all of its groundwater pumping rights, storage capacity rights, wastewater treatment capacity rights, and pipeline capacity rights to the Provider. As necessary, the City will assign those rights to the provider so that the provider can perform its obligations associated with the contemplated change in utility organization.

5. **Financial Structure**: New provider will develop a financial study showing it is capable of meeting all the financial obligations related to the operation of the drinking water, non-potable water, and wastewater assets and the GWRP plant. These obligations include an industry “best practices” program of on-going maintenance and capital improvements for all the assets included in the potential change in the utility organization.

6. **Provider Experience**: New provider must currently own and operate wells, wastewater and drinking water treatment plants, as well as recycled water facilities for non-potable water use. Provider must demonstrate proven ability to maximize the productivity of these assets acquired from the City, and in particular, the City’s GWRP.

7. **OCALFCO**: Importantly, Provider and its staff must demonstrate experience with acquisition or annexation of exiting drinking and wastewater systems and assets. The new provider must also have worked with OCALFCO in the past.
8. **Customer Service:** The new Provider will provide a level of customer service that meets or exceeds best industry practices and will have a local office accessible to wastewater and water customers for billing, service requirements including quick response to major drinking water and wastewater system asset failures or disruptions.

9. **Governance:** San Juan Capistrano water service and wastewater service customers will have the right to vote for an at-large member of the provider’s governing board.

10. **Employee Salary and Benefits:** A new provider will assess the feasibility of maintaining the existing City staff until such time as each employee terminates employment or retires. Salary and benefits would be contingent on what is allowed for under the law, a collective bargaining agreement, and/or local agency rules and policies of any new provider.

11. **Provider Location:** It would be desirable for the Provider’s service area to be adjacent to that of the City of San Juan Capistrano.

12. **Seat on San Juan Basin Authority Board:** Provider will appoint a City Council designated representative to the San Juan Basin Authority Board.
TO:  Board of Directors

(Directors Barbre, Tamaribuchi and Hinman)

Robert Hunter  Staff Contact: Jonathan Volzke
General Manager

SUBJECT:  Update on Water Policy Dinner

STAFF RECOMMENDATION

Staff recommends the Board of Directors receive and file report and provide input on alternative events.

COMMITTEE RECOMMENDATION

Committee recommends (To be determined at Committee Meeting)

DETAILED REPORT

At the direction of the Water Policy Dinner subcommittee, the candidates for California’s U.S. Senate seat were contacted as potential guests to discuss their views of the state water policy and California WaterFix.

Following the June primary, Government Affairs Manager Heather Baez contacted the staff of Congresswoman Loretta Sanchez, while Public Affairs Manager Jonathan Volzke contacted the Kalama Harris campaign.

Sanchez’s staff was open to the idea, while Harris’ staff did not return emails or telephone calls. A letter was also mailed to both campaigns, inviting them to participate in a Water Policy Dinner before the General Election. To date, no response has been received.

Staff would like direction as to continue pursuing the candidates, and inviting one if only Congresswoman Sanchez makes herself available.

Alternately, staff has suggestions for other speakers who would be informative and engaging speakers for the next Water Policy Dinner.
| Member Agency Relations | Heather provided a legislative update to the MWDOC Member Agency Managers meeting.  
Heather hosted a meeting with legislative coordinators from MWDOC’s member agencies and provided a legislative update and facilitated a roundtable discussion.  
Heather staffed the Water Issues Study Group Alumni event hosted by Mesa Water District. Directors Dick and Finnegan served as panelists. Jonathan provided talking points for both directors.  
Laura attended the Water Use Efficiency Workgroup Meeting and provided an update on the Smart Irrigation Month and California Sprinkler Adjustment Notification.  
Tiffany and Laura designed a bill insert featuring outdoor irrigation rebates for the member agencies to distribute.  
Laura participated in the NPDES Public Education sub-committee conference call with the County of Orange.  
Jonathan accompanied Director Hinman to a San Clemente City Council meeting as the Director presented a proclamation to the city for its water conservation efforts.  
Jonathan and Laura met with a representative from the City of Anaheim PIO office to explain MWDOC programs.  
Jonathan and Laura met with representatives from the San Juan Capistrano utilities department to explain MWDOC programs.  
Bryce compiled data from the “Water Waste” reporting component of ocwatersmart.com, providing said information to the relevant agencies.  
PA staff hosted and participated in the bi-monthly Public Affairs Workgroup meeting for MWDOC member agencies. Agenda items included MET/ACWA outreach efforts, self-certification public outreach strategies, a round table discussion, and policy discussions. |

Page 1 of 4

<tr>
<th><strong>Item 8</strong></th>
<th></th>
</tr>
</thead>
</table>
| **Community Relations** | Discussion of 2016 CHOICE programs and an introduction to California Sprinkler Adjustment Notification.  
Heather met with Emily France, Chair of the North Orange County Chamber to discuss how MWDOC can get involved with their organization and have a more active presence.  
Jonathan, Tiffany, Bryce, Laura, and Ivan worked on the Smart Irrigation Month campaign. Laura coordinated with the California Landscape Contractors Association and member agencies’ staff to reach out to landscape contractors to offer a discount for Smart Irrigation Month.  
Jonathan attended the OC Business Council Infrastructure Committee meeting.  
Bryce, Ivan, Jonathan and Laura produced a copy of eCurrents that was distributed. The most popular story in the enewsletter was a report on Curt Schmutte’s discussion of the California Delta. |
| **Education** | Laura worked with the respective agencies with student overage requests and adding new schools to the education program. She also met with Inside the Outdoors staff to discuss next year’s changes.  
Public Affairs staff organized and attended the Poster Slogan awards ceremony at the Discovery Cube in Santa Ana. Director Barbre emceed the event, which was also attended by Director Hinman. |
| **Media Relations** | Laura wrote a press release for Smart Irrigation Month. Bryce submitted the release for posting on the ACWA homepage.  
Jonathan wrote a news release on the MWDOC directors calling for voluntary 10 percent conservation countywide. The information was included in LA Times and other news reports. The information was also included in a “boosted” Facebook post to OC residents. |
| **Special Projects** | Heather attended the ACC-OC Leadership Summit planning meeting. This summit is still in the very early planning and discussion phase. |
Heather staffed the WACO Planning meeting where the July-September topics/speakers were discussed. She also invited and coordinated the panel for the July 9th meeting – California’s Changing Landscape.

Heather staffed the ISDOC Quarterly Luncheon including preparing the agenda, drafting talking points, and coordinating RSVPs. The luncheon featured speaker Deborah Diep, Director of the Center for Demographic Research. Directors Barbre, Osborne, and Tamaribuchi attended. Director Finnegan checked in guests and collected payment at the door. Laura Loewen also provided staff support at the luncheon.

Laura sent out the weekly California Sprinkler Adjustment Notification emails. She also worked with member agencies’ staff teaching them how to administer the notifications at an Agency level.

Laura attended the South OC Economic Coalition Meeting. Director Dick was also in attendance.

Laura met with Eileen Oldroyd, with the Orange County Association of Realtors, and is developing water conservation door hangers to be distributed by realtors.

Jonathan continued working with South County water agencies and Supervisor Bartlett’s office on the October 1 South OC Water Expo. The event, conceived by the Supervisor’s office, will be held at Norman P. Murray Center in Mission Viejo.

Laura and Jonathan met with a representative from the Ventura Water Take 1 video contest to explore the potential of an event here.

Jonathan met with representatives from the OC Register to discuss the upcoming CHOICE magazine.

Bryce, Jonathan, Laura and Tiffany attended the OC Public Relations Society presentation on award-winning outreach campaigns.

Laura worked with the California Association of Landscape Contractors to develop a discount program to encourage OC residents to repair or install more efficient irrigation.
| Legislative Affairs | Tiffany and Bryce updated the MWDOC CA WaterFix, OC Water Supply and the CRA briefing papers with most current information and uploaded them to the website.  
Tiffany prepared an OC Water Reliability briefing paper and uploaded it to the website.  
Bryce attended training on the new AlertOC system at the Orange County EOC.  
Tiffany and Bryce updated several pages on the website.  
Jonathan worked with Melissa on the writing and website posting of the MWDOC water supply information.  
Heather attended a meeting with Supervisor Michelle Steel and Directors Barbre and Osborne.  
Heather participated in the Metropolitan Member Agency Legislative Coordinators conference calls.  
Heather met with Lana Haddad, the new Director of Government and Public Affairs for Long Beach Water Department.  
Heather attended the ACWA State Legislative Committee meeting in Sacramento. |
| Water Summit | Jonathan and Tiffany met with the Summit Committee for a final event report and to discuss next year’s event.  
The Grand Californian is not available for next year’s event, and the Committee is examining other options.  
The 2017 Summit will be the 10th annual. OCWD will be the lead agency for the event. |
