# AGENDA

## PLEDGE OF ALLEGIANCE

## ROLL CALL

## **PUBLIC COMMENTS/PARTICIPATION**

At this time, members of the public will be given an opportunity to address the Board concerning items within the subject matter jurisdiction of the Board. Members of the public may also address the Board about a particular Agenda item at the time it is considered by the Board and before action is taken. If the item is on the Consent Calendar, please inform the Board Secretary before action is taken on the Consent Calendar and the item will be removed for separate consideration.

The Board requests, but does not require, that members of the public who want to address the Board complete a voluntary "Request to be Heard" form available from the Board Secretary prior to the meeting.

#### ITEMS RECEIVED TOO LATE TO BE AGENDIZED

Determine need and take action to agendize items(s) which arose subsequent to the posting of the Agenda. (ROLL CALL VOTE: Adoption of this recommendation requires a two-thirds vote of the Board members present, or, if less than two-thirds of the Board members are present, a unanimous vote of those members present.)

#### ITEMS DISTRIBUTED TO THE BOARD LESS THAN 72 HOURS PRIOR TO MEETING

Pursuant to Government Code section 54957.5, non-exempt public records that relate to open session agenda items and are distributed to a majority of the Board less than seventy-two (72) hours prior to the meeting will be available for public inspection in the lobby of the District's business office located at 18700 Ward Street, Fountain Valley, California 92708, during regular business hours. When practical, these public records will also be made available on the District's Internet Web site, accessible at <a href="http://www.mwdoc.com">http://www.mwdoc.com</a>.

## ITEMS DISTRIBUTED TO THE BOARD LESS THAN 72 HOURS PRIOR TO MEETING

President Barbre inquired as to whether there were any items distributed to the Board less than 72 hours prior to the meeting.

No items were distributed.

#### PRESENTATION/DISCUSSION/INFORMATION ITEMS

## INPUT OR QUESTIONS ON MET ISSUES FROM THE MEMBER AGENCIES/MET DIRECTOR REPORTS REGARDING MET COMMITTEE PARTICIPATION

President Barbre noted that Director Osborne continues to hold his position on the MWDOC Board and that his seat will not be open for election in the 2018 election.

Member agencies raised no issues or questions.

Director McKinney commented on the recent approval of small capital projects at Metropolitan Water District.

Director Barbre noted that Phil Hawkins will be inducted at the upcoming Metropolitan Water District Board meeting as a returning Board member at Central Basin Municipal Water District.

# DISCUSSION SERIES PART 1 – LOCAL RESOURCES PROGRAM (LRP) EVOLUTION

Melissa Baum-Haley provided a presentation on Metropolitan Water District's Local Resources Program (LRP) with a focus on the history of the program, noting that the August and September meetings will provide additional details of the program. The

program provides monetary incentives to offset the costs of local projects that would otherwise not move forward and therefore improves regional reliability.

Dr. Baum-Haley's presentation reviewed a list of regional benefits, evolution highlights of the program, incentive dollars spent vs acre-feet yield, program criteria and local supply production versus IRP target.

Following the presentation, the Board held discussion and reviewed some of the MWDOC staff observations, including success of the program and overall benefit to the Orange County region in maintaining local supplies. Additionally, discussion ensued on the evolution of the program and what adjustments may be necessary in the future to address changing conditions.

Dr. Baum-Haley noted that the August 1<sup>st</sup> meeting presentation will hold a discussion on LRP Policy.

The Board received and filed the report and presentation.

# CALIFORNIA WATERFIX ACTIVITIES UPDATE

Harvey DeLaTorre noted that a re-vote on the California Water Fix will be held at Metropolitan Water District on July 10<sup>th</sup>.

# ACTION CALENDAR

# H.R. 6147 00 DEPARTMENT OF INTERIOR APPROPRIATIONS

Director Thomas made a MOTION, which was seconded by Director Finnegan, for the Board to adopt a support position on language in Section 441 of H.R. 6147 (Calvert-CA), the House Appropriations bill for the Department of Interior, and send a letter to Congressman Valadao expressing MWDOC's position.

Discussion ensued, with Directors Tamaribuchi and Yoo Schneider expressing opposition to the language, noting it may dilute MWDOC's position on the California WaterFix. Director Tamaribuchi noted he did not see any benefit for supporting this language and Director Yoo Schneider expressed the importance of the environmental review process.

The MOTION failed by a vote of 3-2 (due to a lack of a quorum of 4 members approving). Directors Barbre, Finnegan, and Thomas voted in favor; Directors Tamaribuchi and Yoo Schneider opposed. Legal Counsel Byrne advised that in order for a motion, ordinance or resolution to pass, it must be approved by a quorum of the full Board (4 members). This item was referred to the full Board in August.

## **INFORMATION CALENDAR**

# **ACTION ITEM**

# H.R. 6147 – DEPARTMENT OF INTERIOR APPROPRIATIONS

General Manager Hunter advised that during the discussions at last month's meeting, the Committee recommended the Board adopt a support position on Section 437 of H.R. 6147 (Calvert-CA) relating to judicial review of the California WaterFix and EcoRestore project. At that time, the Committee opted not to take a position on the language in Section 441 related to judicial review of projects within the CALFED Bay-Delta Authorization Act (Valadao language), but instead requested the Valadao language return to the Committee for further discussion.

Director Tamaribuchi expressed concern with the proposed language noting that the WaterFix should be the first priority at this time, and that the proposed projects included in the language may delay progress with the WaterFix (as those projects have not gone through the extensive review that the WaterFix has); Director Yoo Schneider concurred.

Director Barbre expressed support for the language as the proposed projects would increase storage; Director Thomas concurred.

Considerable discussion ensued regarding the language, the pros and cons of the language, the environmental process for vetting the projects, the importance of not delaying progress on the WaterFix, and the need for additional water storage to increase reliability.

Upon MOTION by Director Thomas, seconded by Director Dick, and carried (2-1), the Committee recommended the Board adopt a support position on the language in Section 441 of H.R. 6147 (Calvert-CA), the House Appropriations bill for the Department of Interior, and send a letter to Congressman Valadao expressing MWDOC's position. Directors Thomas and Dick voted in favor; Director Tamaribuchi opposed.

# **DISCUSSION ITEMS (continued)**

# b. State Legislative Report (BBK)

Mr. Syrus Devers reviewed his written report with the Board, highlighting SB 998 (Dodd-Water shut off prohibitions) and SB 2050 (Caballero-Small district consolidation).

# c. County Legislative Report (Lewis)

Mr. John Lewis provided an overview of his written report, highlighting the recent OC

LAFCO meeting wherein 9% budget increase was approved, and changes to LAFCO's policies, procedures, and guidelines, and proposed work plans are under consideration (which may lay the groundwork for more local agency consolidations).

# PUBLIC COMMENTS

Mr. John Earl addressed the Committee regarding the Poseidon Desalination Project encouraging both Boards to live-stream their meetings.

Director Al Nederhood (Yorba Linda Water District) also addressed the Poseidon Desalination Project, expressing concern with the recent cost analysis done regarding the Project.

# UPDATE ON CALIFORNIA WATERFIX ACTIVITIES

MWDOC Sr. Water Resources Analyst Melissa Baum-Haley provided an update on the California WaterFix, noting that 67% of the participating agencies have officially supported the project. She also provided an overview of a recent meeting of the Delta Conveyance Design and Construction Authority. The Committee received and filed the report.

# STATUS OF IMPORTED WATER SUPPLIES

MWDOC Water Resources Analyst Kevin Hostert provided an overview of MET's current storage levels, and Northern California accumulated precipitation and snow pack levels for the year, including the final Table "A" Allocation of 35%.

The Committee received and filed the report.

# STATUS OF MWDOC ORANGE COUNTY WATER RELIABILITY STUDY

MWDOC Assistant General Manager Karl Seckel provided an update on the status of the Orange County Water Reliability Study, including an overview of the process (working with the member agencies, etc.), and advised that he anticipates scheduling workshops with the agencies by the end of August.

He advised that this Study is an update to the 2016 Reliability Study and will include information on a more severe climate scenario (scenarios affecting both the Colorado River and State Water Project), as well as additional storage reservoir options.

The Committee received and filed the report.

# UPDATE ON STORAGE DISCUSSIONS WITHIN OCWD BASIN

OCWD staff Roy Herndon presented information regarding OCWD's groundwater basin storage evaluation, highlighting OCWD's current basin management practices, drought issues and scenarios, accumulated overdraft projections, findings, and recommendations (accumulated overdraft target and basin storage triggers can be lowered 50,000 af without jeopardizing drought preparedness), maximum accumulated overdraft should remain at 500,000 af, and storage agreements should be contained within SARCCUP storage, at least until the MET CUP terminates in 2028). Mr. Herndon then provided an overview of the proposed basin management policy revisions.

Following discussion, the Committee received and filed the report.

## POSEIDON HUNTINGTON BEACH OCEAN DESALINATION PROJECT UPDATE

OCWD General Manager updated the Committee on the Poseidon Huntington Beach Desalination Project, noting that OCWD recently approved an updated Term Sheet (between OCWD and Poseidon). Discussion ensued regarding the Term Sheet and Mr. Markus advised that there would be no project if MET LRP funding is not provided.

The Committee received and filed the report.

# NEXT COMMITTEE MEETING

The next meeting is scheduled for October 24, 2018.

## ADJOURNMENT

There being no further business to come before the Committee, the meeting adjourned at 9:38 a.m.

Total	100.00%	\$14,009,483	\$13,960,863

The average number of days to maturity/call as of June 30, 2018 equaled 158 and the average yield to maturity is 1.827%. During the month, the District's average daily balance was \$21,635,670.24. Funds were invested in Federal Agency Issues, Certificates of Deposit, Negotiable CD's, Miscellaneous Securities, the Local Agency Investment Funds (LAIF) and the Orange County Investment Pool (OCIP) during the month of June 2018.

The (\$48,620) difference between the book value and the market value on June 30, 2018 represents the exchange difference if all investments had been liquidated on that date. Since it is the District's practice to "buy and hold" investments until maturity, the market values are a point of reference, not an indication of actual loss or gain. There are no current plans or cash flow requirements identified in the near future that would require the sale of these securities prior to maturity.

# PARS DIVERSIFIED PORTFOLIOS **MODERATE**

## WHY THE PARS DIVERSIFIED MODERATE PORTFOLIO?

#### **Comprehensive Investment Solution**

HighMark® Capital Management, Inc.'s (HighMark) diversified investment portfolios are designed to balance return expectations with risk tolerance. Key features include: sophisticated asset allocation and optimization techniques, four layers of diversification (asset class, style, manager, and security), access to rigorously screened, top tier money managers, flexible investment options, and experienced investment management.

#### **Rigorous Manager Due Diligence**

Our manager review committee utilizes a rigorous screening process that searches for investment managers and styles that have not only produced above-average returns within acceptable risk parameters, but have the resources and commitment to continue to deliver these results. We have set high standards for our investment managers and funds. This is a highly specialized, time consuming approach dedicated to one goal: competitive and consistent performance.

#### **Flexible Investment Options**

In order to meet the unique needs of our clients, we offer access to flexible implementation strategies: HighMark Plus utilizes actively managed mutual funds while Index Plus utilizes index-based securities, including exchange-traded funds. Both investment options leverage HighMark's active asset allocation approach.

#### **Risk Management**

The portfolio is constructed to control risk through four layers of diversification – asset classes (cash, fixed income, equity), investment styles (large cap, small cap, international, value, growth), managers and securities. Disciplined mutual fund selection and monitoring process helps to drive return potential while reducing portfolio risk.

#### INVESTMENT OBJECTIVE

To provide growth of principal and income. It is expected that dividend and interest income will comprise a significant portion of total return, although growth through capital appreciation is equally important.

The performance records shown represent size-weighted composites of tax exempt accounts that meet the following criteria: Composites are managed by HighMark's HighMark Capital Advisors (HCA) with full investment authority according to the PARS Moderate active and passive objectives and do not have equity concentration of 25% or more in one common stock security.

Security. The adviser to the PARS portfolios is US Bank, and HighMark serves as sub-adviser to US Bank to manage these portfolios. US Bank may charge clients as much as 0.60% annual management fee based on a sliding scale. As of June 30, 2018, the blended rate is 0.58%. US Bank pays HighMark 60% of the annual management fee for assets sub-advised by HighMark under its sub-advisory agreement with US Bank. The 36 basis points paid to HighMark, as well as other expenses that may be incurred in the management of the portfolio, will reduce the portfolio returns. Assuming an investment for five years, a 5% annual total return, and an annual sub-advisory fee rate of 0.36% deducted from the assets at market at the end of each year, a 10 million initial value would grow to \$12.54 million after fees (Net-of-Fees) and \$12.76 million before fees Gross returns are presented before management and custodial fees but after all trading expenses and reflect the reinvestment of dividends and other income. Client's return will be reduced by the advisory fees and other expenses it may incur as a client. Additional information regarding the firm's policies and procedures for calculating and reporting performance results is available upon request. In Q1 2010, the PARS Composite definition was changed from \$750,000 minimum to no minimum. Performance results are calculated and presented in U.S. dollars and do not reflect the deduction of investment advisory fees, custody fees, or taxes but do reflect the deduction of trading expenses. Returns are calculated based on trad-date accounting. Blended benchmarks represent HinbMark's strategic allocations between enuity fixed income. and cash and are rebalanced

TO: Board of Directors

FROM:Administration & Finance Committee<br/>(Directors Thomas, Dick, Finnegan)

Robert J. Hunter, General Manager

#### SUBJECT: AUTHORIZE EXTENSION OF AGREEMENT FOR SOCIAL MEDIA CONSULTING SERVICES FOR UP TO SIX MONTHS

## STAFF RECOMMENDATION

It is recommended that the Board of Directors: Authorize the General Manager to extend the agreement with HashtagPinpoint Corporation (#P) to provide Social Media Consulting Services to the District. This agreement secures services currently provided by #P on a month to month basis for a period of up to six months, or until the District's current Request For Proposals (RFP) process for Strategic Digital Communications Services - No. PA0618-001 - have concluded.

## **COMMITTEE RECOMMENDATION**

Committee concurred with staff recommendation.

#### DETAILED REPORT

#P has been providing the District with Social Media Consulting services and support since being awarded a contract through a competitive bid process conducted last fiscal year. A subsequent RFP - No. PA0618-001 Strategic Digital Communications Services - was distributed before the contract termination date.

The timing of the Board discussion of the Strategic Communication Program and Plan and the subsequent approval of the Strategic Digital Communications contract was discussed at Executive Committee. At the direction of the Board, the process for this RFP has been placed on hold while the Board reviews the District's Strategic Communication's Program and Plan in the Public Affairs and Legislation Committee. There was consensus at Executive Committee for the General Manager to extend the existing Social Media contract to ensure the District's social identity remains steady and relevant - a position which has been successfully developed and nurtured over the past year, until the Board of Directors completed their process. It was recognized by the Executive Committee that if this process

was going to extend beyond August, the extension would exceed the GM's purchasing authority of \$25,000. This Board Action authorizes up to a six-month extension under the current contract terms of a not to exceed amount of \$9,500 per month (total of \$57,000). This extended contract would be terminated in conjunction with the award of the new contract for Strategic Digital Communications services.

#### EXTENSION OF AGREEMENT FOR SOCIAL MEDIA CONSULTING SERVICES FOR MUNICIPAL WATER DISTRICT OF ORANGE COUNTY BY HASHTAGPINPOINT COORPORATION

This FIRST EXTENSION OF AGREEMENT ("Extension") is dated as of August 15, 2018, by and between the Municipal Water District of Orange County (MWDOC) and the HashtagPinpoint Corporation (Consultant) (collectively, the "Parties).

## **RECITALS**

WHEREAS the Parties entered into an agreement on September 20, 2017, (the "Original Agreement") for services in connection with administering MWDOC's Social Media Program.

WHEREAS the Original Agreement, which is attached hereto as a part of this Extension, ended on June 30, 2018.

WHEREAS the Original Agreement terms state that the Consultant will perform social media consulting services at a blended rate (Partner, Account Manager, creative AND scheduled media buys) of \$95/hour, not to exceed \$9,500 per month.

NOW THEREFORE the Parties hereby agree to extend the term of the Original Agreement on a month to month basis for a period of up to 6 months, or until a new contract is awarded to a firm to perform these services. This Extension will commence immediately upon the expiration of the Original Agreement, and will end on or before January 1, 2019, in accordance with the terms of the Original Agreement as well as the terms set forth herein.

## TERMS

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree to the new Extension terms as follows:

- 1. The Consultant will continue to manage the District's various Social Media Platforms, providing strategic guidance and technical support, creating and curating content, purchasing advertising, monitoring, evaluating, and amending effectiveness of outreach efforts, and providing monthly analytics to staff.
- 2. Term and Termination. This Extension will commence as of July 1, 2018, and will terminate as of January 1, 2019, or sooner should the District award a contract to a winning proposer of RFP No. PA0618-001, Strategic Digital Communications Services.

SUBJECT: REVISION TO MWDOC ADMINISTRATIVE CODE SECTION 8000

## STAFF RECOMMENDATION

It is recommended that the Board of Directors review and approve the revision to MWDOC Administrative Code Section 8000.

#### **COMMITTEE RECOMMENDATION**

Committee concurred with staff recommendation.

#### DETAILED REPORT

Discussion was held at the Executive Committee Meeting regarding the review and rebid of contracts every five (5) years pursuant to MWDOC's Administrative Code Section 8000 and specifically in specialized situations where the field of qualified contractors is extremely limited. Following discussion, staff was asked to prepare revisions to the Administrative Code to provide clarification in those instances where the services being provided are unique or specialized and the bidding process does not make an efficient or effective business practice.

The Administrative Code currently specifies that "all contracts should be reviewed and rebid at least every five (5) years, except in situations with documented significant benefits to MWDOC." Sole source contracts entered under the General Manager's authority up to \$25,000 require a justification form to the Board of Directors and above \$25,000 require Board approval with the justification included in the Board write up. The intention of this revision is to indicate that review must occur at least every 5 years but in limited, special circumstances the contract may not be rebid.

The following is the recommended revision to the Administrative Code:

## CONTRACTS

§8000-§8004

## §8000 CONTRACTS

Contract documents shall consist of such documents as the General Manager may deem desirable and as approved as to form by MWDOC's Legal Counsel in addition to those required by law. The contract documents may include, among others, a notice inviting bids, proposal, bidder's bond, form of agreement, performance bond, payment bond, specifications and drawings. Whenever an award is made by the Board, such award shall constitute approval of the contract documents and contractor or consultant shall be authorized to proceed with the provision of services or materials described in the contract document, subject to compliance with the insurance and bonding requirements, execution of all documents and, where applicable, issuance by MWDOC of a Notice to Proceed.

It is MWDOC's policy that purchasing and contracting shall be conducted in a fair, open, and transparent manner so as to maximize benefits to MWDOC. All contracts should <u>must</u> be reviewed and re-bid at least every five (5) years, except in situations with documented significant benefits to MWDOC<sub> $\tau$ </sub>, or  $\tau$  in those instances where the services being provided are unique or highly specialized with an extremely limited number of <u>qualified vendors</u>.

The procedures for entering into contracts shall be pursuant to the laws governing MWDOC and those policies outlined in MWDOC's Contracts Manual.

#### M--6/17/15

## §8001 APPROVING AUTHORITY FOR PURCHASES/CONTRACT SERVICES

Approving authorities listing the standards and procedures for various purchases and contract services are listed in the matrix attached to this section as Exhibit A.

The General Manager shall have the authority to authorize Change Orders up to 10% or \$10,000, of the original authorization, whichever is greater, but in no event shall it exceed \$25,000. The General Manager may delegate all purchasing approval authorities to the Assistant General Manager during periods when the General Manager is absent.

#### SUBJECT: AUTHORIZE ATTENDANCE AT THE WEFTEC CONFERENCE, SEPTEMBER 29 – OCTOBER 3, 2018, NEW ORLEANS, LA

#### STAFF RECOMMENDATION

It is recommended that the Board of Directors: Consider authorizing attendance to the WEFTEC conference to be held September 29-October 3, 2018 in New Orleans for one Director and one Staff Member.

#### COMMITTEE RECOMMENDATION

By a vote of 2-1, Committee recommended the Board authorize attendance by one Director only (no staff) at the WEFTEC conference.

#### DETAILED REPORT

The Water Environment Federation holds an annual technical exhibition and conference (WEFTEC). Director Yoo Schneider currently holds the position of Vice Chair and will be leaving this post to become the Public Communications and Outreach Committee Chair for WEFTEC. WEFTEC is one of the major national water conferences and has a well-respected reputation in the industry. WEFTEC offers water quality professionals from around the world with water quality education and training.

Director Yoo Schneider, along with Director of Public Affairs Damon Micalizzi have been invited to be presenters/speakers at the conference on the topic of Connecting with Your Community (The Community Tool Box). The conference runs from September 29 to October 3, 2018.

This conference was not included and approved in the FY2018-19 budget and therefore requires Board approval for the out-of-state travel to New Orleans, LA. For a variety of reasons, the Conference and Travel & Accommodations budget cost categories (GL#:

Budgeted (Y/N): No	Budgeted amount:		Core X	Choice

Fiscal Impact (explain if unbudgeted): Funding will likely be available from both the Director and Employee FY2018-19 budget categories for Conferences (GL 7155 & GL 7110) and Travel & Accommodations (GL 7155 & GL 7150).					

7110, 7115, 7150 & 7155) for both Directors and Staff normally are not fully spent. Based on the experience of past years it is highly likely that funds for this trip would be available from those budget line items.

Estimated costs for two attendees are as follows:

Registration	\$1900	(2 people, full conference @ \$950 per person)
Hotel	\$2500	(10 nights @ \$250/night)
Airfare:	\$1200	(2 round-trip tickets @ \$600 each)

The estimated total cost is \$5,600 plus meals and incidentals. This total could decrease depending upon whether both participants stay for the full five days of the conference.

# What Is WEFTEC?

Home (/) > About > About WEFTEC (/about/about-weftec/) > What Is WEFTEC?

WEFTEC, the Water Environment Federation's Technical Exhibition and Conference, is the largest annual water quality event in the world.

WEFTEC is the largest conference of its kind in North America and offers water quality professionals from around the world with the best water quality education and training available today.

Also recognized as the largest annual water quality exhibition in the world, the expansive show floor provides unparalleled access to the most cutting-edge technologies in the field; serves as a forum for domestic and international business opportunities; and promotes invaluable peer-to-peer networking among registrants.

WEFTEC has shown continual growth for both the technical program and exhibition. WEFTEC 2015, which was held in Chicago, set a new exhibition record and was the largest showing for WEF in the Windy City.

#### What Makes WEFTEC a Leading Source in Water Quality?

A wide range of topics and focus areas allow registrants to design their own, unique learning experience while earning up to 16.5 Professional Development Hours (PDHs) for continuing education units and eight general Contacts Hours per day visiting the Exhibition. An increasing number of abstract submittals from experts in the water quality field results in a world-class technical program of technical sessions and workshops that addresses a diverse and comprehensive list of contemporary water and wastewater issues and solutions including:

- **Collection Systems** Management, operations and maintenance, infrastructure, overflow reduction, wet weather planning, watershed approaches, and regulations
- Energy Conservation and Management Resource recovery, combined heat and power, biogas optimization
- Membrane Technologies Application in wastewater and water reuse, innovations, enhanced performance, regulatory compliance

# **FROM:** Public Affairs and Legislation Committee (Directors Dick, Tamaribuchi, and Thomas)

Robert Hunter General Manager Staff Contact: Heather Baez

#### SUBJECT: H.R. 6147 - DEPARTMENT OF INTERIOR APPROPRIATIONS

#### STAFF RECOMMENDATION

Staff recommends the Board of Directors formulate a policy position and discuss the language in Section 441 of H.R. 6147 (Calvert - CA), the House Appropriations bill for the Department of Interior, and direct staff as to appropriate action.

#### **COMMITTEE RECOMMENDATION**

In July, the Committee, by a 2-1 vote, recommended the Board adopt a support position on the language in Section 441 of H.R. 6147 (Calvert – CA), the House Appropriations bill for the Department of Interior, and send a letter to Congressman Valadao expressing MWDOC's position. At the July Board Meeting, the motion failed passage by a vote of 3-2 (a quorum of the full Board (4) is required for passing).

On July 19, the House approved H.R. 6147 by a vote of 217-199. It was approved by the Senate on August 1 by a vote of 92-6, however the Valadao language was not in the Senate version of the bill. The two versions of the bill are expected to be conferenced together with a final version to be considered by both the House and the Senate in

#### BACKGROUND

At last month's Public Affairs and Legislation Committee, the committee adopted a support position on Section 437 of H.R. 6147 (Calvert – CA) relating to judicial review of the California WaterFix and EcoRestore project. At that time, the committee opted to not take a

position on the language in Section 441 related to judicial review of projects within the Calfed Bay-Delta Authorization Act, instead directing staff to return the following month with a report. Specifically, the committee asked that staff include a list of projects within the Calfed Bay-Delta Authorization Act and the status of the projects' Environmental Impact Report (EIR) and/or Environmental Impact Statement (EIS) before taking a formal position.

#### REPORT

On June 6 the House Appropriations Committee met and approved the fiscal year 2019 Interior and Environment Appropriations bill on a vote of 25-20. The legislation includes funding for the Department of the Interior, the Environmental Protection Agency (EPA), the Forest Service, the Indian Health Service, and various independent and related agencies.

In total, the bill provides \$35.25 billion, equal to the fiscal year 2018 enacted level. These funds are targeted to programs that support and protect the nation's natural resources, including \$3.9 billion for the Department of the Interior and U.S. Forest Service to prevent and combat wildfires. The legislation also contains several policy provisions addressing current regulations at the EPA and other agencies.

A number of amendments were adopted on a voice vote during the June 6 committee meeting, including one from Congressman David Valadao (R-CA), which is now Section 441 of the bill, adding language that states, "*Notwithstanding any other provision of law, the Calfed Bay-Delta Authorization Act (title I of Public Law 108–361; 118 Stat. 1681), the water project described in chapter 5 of part 3 of division 6 of the California Water Code (sections 11550 et seq.) as in effect on the date of enactment of this Act and operated by the California Department of Water Resources, and all projects authorized by section 2 of the Act of August 26, 1937 (chapter 832; 50 Stat. 850) and all Acts amendatory or supplemental thereto, shall hereafter not be subject to judicial review."* 

Projects authorized by section 2 of the Act include:

- Shasta Dam Enlargement
- North of Delta Off-stream Storage Investigation (Sites Reservoir)
- Upper San Joaquin River Basin Storage (Temperance Flat)
- San Luis Reservoir Low Point Improvement Project (or San Luis Reservoir Expansion, or Sisk Dam raise)

Shasta Dam final feasibility report and EIS was transmitted to Congress in 2015. In March 2018, Congress appropriated \$20 million for design and pre-construction costs which is expected to take until 2020 to complete.

Sites Reservoir closed its comment period on the draft EIR/EIS in January 2018. The final EIR/EIS is anticipated in late 2019.

The Temperance Flat final EIR is expected in Fall 2018 and the final EIS is expected in 2021.

The San Luis Reservoir Low Point Improvement Project EIR/EIS was completed in 2015. The Sisk Dam raise at San Luis Reservoir EIR/EIS is expected in 2019.

The Senate also has an Interior Appropriations Bill, S.3073 (Murkowski – AK), which was approved by the Senate Committee on Appropriations on June 14. The Senate's version does not contain the amendment from Congressman Valadao relating to projects within Calfed Bay-Delta Authorization Act.

H.R. 6147 (Calvert – CA) will next be considered on the House Floor and will be subsequently conferenced with the Senate's FY2019 Interior/EPA Appropriations Bill, S.3073 (Murkowski – AK), however a hearing date has not yet been set.

### MWDOC LEGISLATIVE POLICY PRINCIPLES

MWDOC's adopted policy principles do not address or cover this specific area/subject matter. While the language in Section 441 of H.R. 6147 does not have a direct impact to Orange County or Southern California's imported water supply, it may have an indirect impact.

#### DETAILED REPORT

The full text of H.R. 6147 can be found at <u>https://www.congress.gov/115/bills/hr6147/BILLS-115hr6147eas.pdf</u>. The specific language the Board is being asked to discuss, Section 441, is on page 145 of 148 of the bill.

### ACTION ITEM August 15, 2018

- TO: Public Affairs and Legislation Committee (Directors Dick, Tamaribuchi, and Thomas)
- FROM: Robert Hunter, General Manager

Staff Contact: Heather Baez

### SUBJECT: ISDOC CALL FOR NOMINATIONS

### STAFF RECOMMENDATION

Staff recommends the Board of Directors discuss and determine if a member of the MWDOC Board would like to be nominated as a candidate for the ISDOC Executive Committee and direct staff as appropriate.

#### COMMITTEE RECOMMENDATION

The Committee will review this item on August 13, 2018 and make a recommendation to the Board.

#### REPORT

The Independent Special Districts of Orange County (ISDOC) is holding its bi-annual officer elections via mail in September and October 2018. An official Notice of Election & Call for Candidates was recently distributed to all member districts. That notice along with an election timeline is attached for your reference.

Per the ISDOC Bylaws, officials who wish to seek election/appointment as an officer of ISDOC must first secure from their district an official endorsement in the form of a board resolution. In accordance with these Bylaws, the MWDOC Board must endorse a Director's candidacy through Resolution of the Board.

Nominations for the ISDOC Executive Committee close on September 18 and all Board resolutions must be received at that time. Following this deadline, the ISDOC nominating committee will evaluate all candidates and release a recommended slate of candidates. The slate of candidates will be announced and official ballots will be mailed to all ISDOC member districts and the full ballot will be brought forth to the Board at that time.

### PLEASE DISSEMINATE TO ALL BOARD MEMBERS

This email shall serve as official notice and call for candidates for the positions of President, First Vice President, Second Vice President, Third Vice President, Secretary and Treasurer on the Executive Committee of the Independent Special Districts of Orange County (ISDOC).

Terms of office are for two years, commencing on January 1, 2019.

The election will be by mail ballot and new officers will be announced at the October 25, 2018 Quarterly Meeting. Ballots will be mailed to all regular ISDOC members in good standing on Friday, September 21, 2018 and are due by October 23, 2018.

Nominations will close on Tuesday, September 18, 2018. Any Board Member/Trustee of a regular ISDOC member agency is eligible for nomination to any of the open positions. Individuals who wish to be considered for a position should submit a letter of interest for that position, together with a resolution from their Board authorizing their candidacy.

Responsibilities of the positions are as follows:

**PRESIDENT**: The President is the chief executive officer of ISDOC. He or she presides at all meetings of the Board of Directors and the Executive Committee, appoints all committees, and represents ISDOC as its official spokesperson.

**FIRST VICE PRESIDENT**: The First Vice President chairs the Program Committee. Duties include planning the Quarterly Luncheon program, inviting and coordinating with the invited speaker, and in the absence of the President, shall perform all duties of the President.

**SECOND VICE PRESIDENT**: The Second Vice President chairs the Membership Committee. Duties include maintaining a list of current regular and associate members, follow up with any outstanding membership dues as needed, and in the absence of the President and First Vice President, shall perform all duties of the President.

**THIRD VICE PRESIDENT**: The Third Vice President chairs the Legislative Committee. Duties include providing a legislative update,

Call for Nominations Page 2 August 7, 2018

making legislative position recommendations to the Executive Committee, and in the absence of the President, First Vice President, and Second Vice President, shall perform all duties of the President.

**SECRETARY**: The Secretary is responsible for all correspondence and the dissemination of information to members. Duties include preparing and distributing agendas and minutes for the Executive Committee meeting, and editing and publishing the quarterly newsletter. All official correspondence to the members will be approved in advance by the President or President's designee.

**TREASURER**: The Treasurer maintains the complete financial records and bank accounts in the name of the Organization, and pays all bills duly approved by the Executive Committee, with a report to be presented to the membership at the Organizations next membership meeting.

Meetings of the Executive Committee typically occur on the first Tuesday of each month at 7:30 a.m. in the offices of the Municipal Water District of Orange County (MWDOC) in Fountain Valley.

If you are seeking nomination to a position on the Executive Committee, please send your letter/email of interest and a copy of your Board's authorizing resolution to Heather Baez at <u>hbaez@mwdoc.com</u>. All nomination requests must be received by **Tuesday**, **September 18, 2018.** 

If you have any questions about the any of the positions or the election process, please contact either Heather Baez at <u>hbaez@mwdoc.com</u> or Christina Hernandez at <u>chernandez@mwdoc.com</u>.

<b>GENERAL MANAGER'S REPORT</b>
<b>OF STAFF ACTIVITIES</b>
<b>AUGUST 2018</b>

Managers' Meeting	MWDOC held its Member Agency Managers' meeting at its office in Fountain Valley on Thursday, July 19, 2018. In attendance were Lisa Ohlund (EOCWD), Brian Ragland (HB), Paul Cook and Paul Weghorst (IRWD), Chris Regan (LBCWD), Paul Shoenberger (Mesa Water), Drew Atwater (MNWD), John Kennedy (OCWD), Dan Ferons (SMWD), David Spitz (Seal Beach), Jerry Vilander (Serrano WD), Michael Perea (TCWD), Art Valenzuela (Tustin), Roseanne Weston (YLWD), Joe McDivitt and Tom Eastman (SCWD), Harvey De La Torre, Melissa Baum-Haley, Charles Busslinger, Kevin Hostert, Heather Baez, Kelly Hubbard, Rachel Waite and Chris Lingad
	MWDOC Staff: The agenda included the following:
	<ol> <li>Update on CA WaterFix</li> <li>OC Water Reliability Study Schedule Update</li> <li>Launch of MWDOC's Landscape Transformation Program</li> <li>LAFCO Policy &amp; Procedures</li> <li>Conservation Legislation ACWA Toolkit</li> <li>Legislative Reports</li> <li>WEROC Matrix</li> <li>Grant Funding Opportunities</li> </ol> The next meeting is scheduled for August 16, 2018.
Meetings	Karl Seckel, Charles Busslinger, and Chris Lingad met with EOCWD staff on July 23, 2018 to discuss details of conducting a meter test for OC-70. Other issues relative to OC-70 were discussed.
	Charles Busslinger attended a meeting with MET staff on July 26, 2018 to discuss a planned shutdown of the Orange County Feeder (OCF). The shutdown is necessary to make lining repairs to the OCF within Bristol Street, between Willits Street and the I-405, including the section directly in front of South Coast Plaza. Due to the high traffic volumes during Christmas shopping season, the shutdown is scheduled for Feb. 18 <sup>th</sup> to Aug. 9 <sup>th</sup> 2019.
	Karl Seckel, MWDOC Director Sat Tamaribuchi, Garry Brown, Executive Director for OC Coastkeeper and I discussed the status of a number of habitat development projects in the Delta with Curt Schmutte and Alison Collins from MET to get more information on how the projects are progressing.

	<ul> <li>Karl Seckel and Kevin Hostert met with the City of Newport Beach on the CM-1 service connection operations. MET is leaning towards not doing any improvements at the facility which will result in water quality in the pipeline just upstream of this facility not meeting drinking water standards. To begin deliveries at CM-1, MET has to drain the line, flush it, refill it and take and confirm bacteriological samples prior to start-up, a process that may take 5 days or so. Newport Beach will discuss this issue with Laguna Beach and provide input to MWDOC regarding resolution of this issue.</li> <li>A field meeting was held between MET and MWDOC regarding the potential change-out of the venturi meter at CM-12 with a mag meter to provide an expanded range of operations. MET is requesting a design deposit of \$52,000 to prepare a preliminary design and cost estimate for the change out of the meter. CM-12 provides service to the Aufdenkamp line and delivers water into Laguna Beach.</li> </ul>
	MET ITEMS CRITICAL TO ORANGE COUNTY
MET's Water	2018 Water Supply Balance
Supply Conditions	<ul> <li>The Northern California accumulated precipitation (8-Station Index) is reporting 40.9 inches or 84% of normal as of July 23. In the month of July 2018, accumulated precipitation reached 0.1 inches, which is 0.1 inches below normal compared to the historical average. The Northern Sierra Snowpack peaked at 12.3 inches on April 1<sup>st</sup>, which is 43% of normal. Lake Oroville storage is at 57% capacity and 76% percent of normal. The San Luis Reservoir has a current volume of 47% of the reservoirs total capacity.</li> <li>In May, the Department of Water Resources (DWR) increased the State Water Project (SWP) "Table A" allocation to 35%, giving Metropolitan approximately 683 thousand acre-feet (TAF) in SWP deliveries this water year. Metropolitan staff does not anticipate any further changes to this allocation.</li> <li>On the Colorado River system, snowpack is measured across four states in the Upper Colorado River Basin. As of April 15, 2018, snowpack measured at 74% of normal for that date. The ongoing decline in the Colorado River watershed has impacted storage levels in Lake Powell and Lake Mead, which in turn affects the likelihood of surplus or shortage conditions in the future. The Bureau of Reclamation is projecting that there is a 0% chance of a shortage on the Colorado River in 2019, increasing to about 52% in 2020.</li> <li>With estimated total demands and losses of 1.63 million acre-feet (MAF), Metropolitan is projecting that demands will equal supply levels in CY 2018. Based on this, estimated total dry-year storage for Metropolitan at the end of CY 2018 will go down to 2.5 MAF.</li> </ul>

<b>State of the Science Report-Hydrology and Climate Information in the</b> <b>Colorado River Basin</b>
Metropolitan, Southern Nevada Water Authority, Central Arizona Water Conservation District, Denver Water, and the State of Colorado have agreed to fund development of a State of the Science Report which is planned to address:
<ul> <li>The state of knowledge regarding the climatic and hydrologic processes and variables that drive stream-flow outcomes in the Colorado River Basin, including an assessment of the magnitude of effect attributed to each climatic and hydrologic variable;</li> <li>Scientific advances in hydrologic forecasts, climate and hydrology projections, and climate downscaling techniques and approaches, including an assessment of innovative or novel approaches that would add value;</li> <li>Scientific advances in observation techniques and observing systems necessary for hydrologic forecasts and climate and hydrology projections in the Colorado River Basin; and</li> <li>An evaluation of the level of certainty of the state of knowledge, including the identification of crucial gaps and weaknesses in the state of knowledge.</li> </ul>
State Water Resources Control Board
State water Resources Control Doard Metropolitan staff is participating in the Sutter Bypass workgroup, which is identifying research needs in the Sutter Bypass to better understand benefits of this habitat to juvenile salmonids. In June, the workgroup met to discuss initial results of a pilot study conducted this year studying fish growth and food availability in the Sutter Bypass. Results of the pilot study highlighted the different ways in which water moves through the bypass during flood and non- flood events. Even during non-flood events (when the weirs are not overtopped) backwater from the Feather and Sacramento Rivers results in flooding of the lower bypass, which may have benefits for food production and

The group is seeking funding to implement the full study next year.</li> <li>Metropolitan staff met with USBR, National Oceanic and Atmospheric Administration and the State Water Contractors to demonstrate a salmon entrainment model that ICF consultants developed that can be used to evaluate loss and salvage at the export facilities under different environmental and operational scenarios. The model predicts weekly salvage of salmonids based on a suite of variables that can be forecasted one month into the future. All agencies see value in using this as an additional tool in the decision making process to inform water project export operations throughout the year.</li> <li>Metropolitan staff is participating in the Structured Decision Making for Scientific Management in the Bay-Delta (Delta SDM) process, sponsored by USBR and the Delta Science Program, to provide technical input. The purpose of the Delta SDM process is to generate stakeholder decision support models for salmon and Delta Smelt that can be used to identify priorities for implementation.</li> <li>Metropolitan staff continued participating in the Collaborative Science and Adaptive Management Program (CSAMP), including participation on the Collaborative Adaptive Management Team (CAMT). On May 22, Metropolitan staff participated in the CAMT Delta Salmonid Research Workshop. The workshop provided an opportunity for researchers and managers working in the Delta to interact, discuss needs and challenges, and explore opportunities for addressing those needs and challenges together. The workshop was specifically designed to promote dialog between scientists doing research on salmonids in the Delta, and managers that use that science to make decisions and direct funding. The workshop revolved around a set of management questions that reflect management needs for information.</li> </ul>
	CAMT and CSAMP. Outcomes from the workshop will be used to prioritize future funding investments in salmon studies and actions.
	Delta Flood Emergency Management Plan
	DWR continues to develop and refine the Emergency Response Tool (ERT), which is a modeling tool to analyze proposed emergency response actions to respond to catastrophic levee failures in the Delta. The ERT now includes a water quality component, which is integral to determining water quality conditions for export resumption following levee failure emergencies. The ERT has the capability to evaluate freshwater conveyance independent of other levee repairs in the Delta. The ERT analysis shows that short term Sacramento River and San Joaquin River reservoir releases in conjunction with emergency freshwater pathway development and channel diversions provide limited but early export resumption and increased exports associated with pathway restoration.

Orange County Reliability Study	Staff and CDM Smith are working diligently to complete the 2018 Orange County Water Reliability Study Update by the end of August 2018.
East Orange County Feeder No. 2	MWDOC has been discussing concepts for pumping groundwater into the EOCF No. 2 for conveyance to SOC during an emergency event. MWDOC staff had a preliminary discussion with MET senior staff at a February 8, 2018 meeting. A follow-up meeting was held on June 18, 2018 to continue working on these concepts. MET has assigned a senior staff member (Mickey Chaudhuri – MET Assistant Chief of Operations) to be the MET lead for this effort. MWDOC staff will continue to pursue these concepts and will facilitate meetings between MWDOC and MET's legal counsels as necessary.
South Orange	SMWD Trampas Canyon Recycled Water Reservoir
County Projects	The project is designed to create 5,000 acre-feet of recycled water storage capacity and will be the largest surface water reservoir in South Orange County. The Notice to Proceed was issued January 30, 2018 and the project is currently projected to conclude on or before mid-March 2020.
	San Juan Watershed Project
	Santa Margarita Water District (SMWD) continues working on the San Juan Watershed Project. Phase 1 is designed to capture 30 - 2,000 AFY (average of 700 AFY) of wet and dry weather urban runoff through the installation of rubber dams along the lower portion of San Juan Creek. Subsequent project phases are planned to introduce recycled water into San Juan Creek for infiltration into the groundwater basin.
	The Draft Program Environmental Impact Report (Draft PEIR) was circulated for a 65-day public review period, which ended February 23, 2017. The PEIR was originally scheduled for adoption in March 2018. Due to the complexity of some of the issues associated with the steelhead trout which were raised during the public comment period, additional environmental studies are required. SMWD Board adoption of the PEIR has been postponed until the required studies are completed.
	<b>Other Information on South County Projects:</b>
	Expansion of the South County Interconnection Project
	An agreement completed in 2006 resulted in an investment by South Orange County (SOC) agencies in the Irvine Ranch Water District (IRWD) system to allow exchanges of water to be delivered by IRWD into SOC under emergency situations. Project capacity was committed by IRWD to move up to 30 cfs of emergency supplies whereas the agreement allows moving up to 50 cfs, not to exceed 3,000 AF per emergency event. In accordance with the Agreement with IRWD, the monthly emergency capacity committed to the SOC agencies declines over time with zero capacity available in the months of July through September beginning in 2020 and goes to zero in all months by 2030. Under

South Orange County Projects	all circumstances IRWD will provide best efforts to help with emergency supplies.
(continued)	The Board awarded a contract to Dudek on April 18, 2018 to study the ability/constraints of IRWD's system to move water through their system to SOC agencies into the future. A kick-off meeting with IRWD staff, MWDOC staff, and Dudek was held May 14, 2018, and a draft report is anticipated in September 2018.
	MWDOC is also continuing to work on other options with OCWD and MET to move groundwater via the EOCF#2 to SOC during emergency events. Meetings with MET senior staff were held in February and June 2018 (see above). MET has assigned a senior staff member as the MET lead for this effort. MWDOC staff will continue to pursue these options.
	Laguna Beach County Water District Groundwater Project with Newport Beach
	MWDOC, MET, Laguna Beach County Water District and the City of Newport Beach have been working to activate Laguna Beach County's access to 2,025 AF of groundwater from within the Orange County Water District Basin. Deliveries began in September 2016. MWDOC staff met individually with Laguna Beach County and Newport Beach in August 2017 to discuss possible future facility and operational modifications to the MET system as LBCWD now sources some of its supplies from the basin.
	Meetings were held on February 8 <sup>th</sup> and June 18, 2018 between MWDOC staff and senior MET staff to discuss a series of alternatives for CM-1; and the concurrent ability to deliver MET water and groundwater to LBCWD through Newport Beach's water system. MET has indicated that it would prefer to leave the CM-1 facility 'as-is' due to the cost of the alternatives. Current operations allows water to become stagnant at the end of the pipeline between CM-8 and CM-1. Under current procedures MET needs about a week to drain, refill, and confirm bacteria tests before they can serve water through CM-1. MWDOC staff is meeting with member agencies to discuss next steps.
	Camp Pendleton Seawater Desalination Project
	San Diego County Water Authority (SDCWA) is studying the feasibility of a desalination project at the southwest corner of Camp Pendleton Marine Corps Base adjacent to the Santa Margarita River. The project is still in the feasibility study stage and SDCWA is conducting geological surveys, analyzing intake options, and studying the effect on ocean life and routes to bring desalinated water to SDCWA's delivery system. Michael Baker International has been retained to conduct the intake study and they are looking to lease the Doheny Mobile Test Facility from MWDOC and the Doheny Desal Participants. The intake study has been postponed until late 2018 or may be discontinued due to the permitting requirement of completing a full EIR for a simple temporary test facility.

# **ENGINEERING & PLANNING**

Orange County	A detailed write-up on the Orange County Reliability Study was provided at the 8,16,18 Planning & Operations Committee Meeting		
Reliability Study South Orange County Emergency Service Program	the 8-16-18 Planning & Operations Committee Meeting. A kick-off meeting was held on May 14, 2018 with consultant Dudek, IRWD staff, and MWDOC staff to study IRWD's ability to convey groundwater via an interconnection with South Orange County water agencies under emergency supply conditions. Several additional meetings have been held to review hydraulics and model settings. A draft report on the findings is anticipated in September 2018.		
Workshop with B&V Engineers and Hazen & Sawyer	MWDOC staff is working with Ed Means to host a workshop on August 31, 2018 on integrating potential local water supply projects into the OC water system; such as Poseidon, Doheny or the groundwater pump-in project.		
Consultants	The concern is that these local projects may be implemented by others, without fully accounting for the water quality considerations and other issues, which could result in unintended consequences. MWDOC's goal is to try to fully understand the associated issues prior to any of these projects going on-line. The intended outcome of the workshop is to develop scopes of work for follow-up.		
Strand Ranch Project	A detailed presentation on the Strand Ranch Project was provided at the 8-6-18 Planning & Operations Committee Meeting.		
Upcoming Issues with MET	MET Evaluation of Regional Storage Portfolio (ERSP) On April 30, 2018, MET held the first ERSP member agency workshop to discuss the update of emergency criteria and re-evaluation of Metropolitan's Emergency Storage Requirement. A follow-up workshop is scheduled on August 29, 2018 to continue the discussion.		
Poseidon Resources	<ul> <li>On July 18, 2018 OCWD's Board approved a new non-binding 2018 Water Reliability Agreement (Term Sheet) with Poseidon Resources. The major changes in the new 2018 Term Sheet include:</li> <li>1. The rate OCWD pays Poseidon Resources for water is no longer indexed to the MWD water supply rate. OCWD would pay Poseidon's documented cost of service along with an agreed to return on equity. This approach is modeled after the San Diego County Water Authority and Poseidon Resources agreement for the Carlsbad Ocean Desalination Facility.</li> <li>2. The new Term Sheet calls for a 30 to 35-year contractual partnership with Poseidon rather than the 2015 Term Sheet 50-year partnership. The exact length of the contract would be negotiated with the final Water Purchase Contract. A longer contract duration allows for the project capital cost to be amortized over a longer time period resulting in a lower project unit cost; however, the total payments made to Poseidon are greater.</li> </ul>		

Poseidon Resources (continued)		<ul> <li>OCWD would assume the risk for electricity rate increases. Under the 2015 Term Sheet, Poseidon was taking on this risk. This represents a philosophical change in how to deal with future electricity rate increases for the following reasons: <ul> <li>a. Allocating this risk onto Poseidon was not free. Poseidon would have had to charge OCWD a higher rate due to this cost exposure.</li> <li>b. With OCWD agreeing to pay the actual cost of electricity, OCWD should be able to negotiate a slightly lower overall rate for the water.</li> <li>c. If future electricity prices do increase excessively, it will impact the entire water industry and many water supply sources.</li> <li>d. Power cost have remained flat or even decreased in recent years. Under the 2015 Term Sheet, this scenario would have resulted in additional profit for Poseidon. This is consistent with the 2018 Term Sheet approach of paying for Poseidon's actual cost.</li> </ul> </li> <li>Average Southern California Edison electricity cost is currently estimated at \$.086/kwh and is assumed to escalate at 2.5% annually for modeling purposes.</li> <li>OCWD would retain the lead role in developing all aspects of the distribution plan. However, there is now an option to have Poseidon Resources take responsibility for financing and constructing facilities distributing potable water to OCWD, Producers and other retail water agencies.</li> </ul>

Poseidon Resources (continued)	Amendment compliance for the Poseidon Project. It is anticipated that the SARWQCB will act on the permit in the next 6 months.
SMWD Rubber Dams Project	65-day public review period, which ended February 23, 2017. The EIR was originally scheduled for adoption in March 2018. Due to the complexity of some of the issues associated with the steelhead trout, SMWD Board adoption of the EIR has been postponed until additional study work is completed.
Doheny Ocean Desalination Project	South Coast WD Doheny Ocean Desalination Project Draft Environmental Impact Report (EIR) has been released for public comments. The deadline to submit public comments was August 6, 2018. MWDOC staff submitted a letter of support for the project.
	A Request for Qualifications (RFQ) for a 3 <sup>rd</sup> party legal firm to assist with Design-Build-Operate (DBO) contract development was released and 5 proposals were received. The proposals are being reviewed and it is anticipated that the South Coast WD Board will consider awarding a contract in August or September 2018.
	South Coast WD submitted an application for an \$18 million grant for project construction through Bureau of Reclamation "Water SMART: Desalination Construction Projects under the WIIN Act" in time to meet the July 27, 2018 deadline.
]	EMERGENCY PREPAREDNESS
Coordination with WEROC Member Agencies	Ongoing: WEROC, with Michal Baker as the lead consultant, is facilitating 19 agencies through the process of updating the Orange County Water and Wastewater Multi-Jurisdictional Hazard Mitigation Plan. Update: Francisco Soto has been working with the consultant and participating agencies to finalize the public review draft of the Hazard Mitigation Plan. The plan is scheduled to for a public review process in August 2018 and will be submitted to California Office of Emergency Services (CalOES) in September 2018. Public review involves the draft plan being posted on participating agencies websites and social media platforms for review and comment.
	WEROC Radio Replacement Update: Francisco Soto continues to work with member agencies, Motorola, and the Sheriff's Communications staff to implement the OC 800 MHz radio system for WEROC. Francisco has been working with the Sheriff's Communication Division to provide two 800 MHz Radio trainings for WEROC member agencies. One training took place on July 25 <sup>th</sup> , with the second

Coordination with WEROC Member Agencies (continued)	scheduled to take place on August 14 <sup>th</sup> . Francisco has continued to work with City Agencies to program the WEROC channel into their existing 800 MHz radios, as well as coordinating with the Catalina Conservancy and MET to remove the old radio equipment for repeater sites. Lastly, Francisco has been working with Kelly Hubbard to create Standard Operation Procedures for the use of the new radio system.
	Karl Seckel and Kelly met with the General Manager, Betty Burnett, and the Environmental Compliance and Safety Manager, Sean Peacher, of the South Orange County Wastewater Authority (SOCWA). This is an annual meeting to review the WEROC program, the WEROC budget, SOCWA's support of WEROC and what services SOCWA may need support of in the coming year.
	Karl, Harvey De La Torre and Kelly also met with the new City of Orange Public Works Department Manager, Chris Cash, and Water Manager, Jose Diaz. Kelly was able to provide a quick intro on WEROC and how staff can support the City's water and sewer operations in a disaster. Karl and Harvey provided additional background on other MWDOC programs.
Training and Programs	Francisco attended the Agency Representative Training at the County Emergency Operations Center. The course focused on describing the purpose and responsibilities of an Agency Representative to the Emergency Operation Center and Incident Command Center. Agency Representative is a role WEROC and our member agencies would potential need to fulfill in a real event.
Coordination with the County of Orange	Kelly attended the July Orange County Emergency Management Organization (OCEMO) General Meeting and the OCEMO Exercise Design meeting. Updates on county-wide planning and coordination were discussed.
	The Operational Area has started its review and update of the Flood, Dam and Reservoir Annex. This was previously 2 separate documents that County Staff realized had many similarities and decided to combine the two plans. This plan review is very important for the WEROC Member Agencies that have certified dams under the Office of Dam Safety or that have operations in a flood area. Following the Oroville Dam Spillway Failure in 2017, the State of CA has changed the requirements for Dam Inundation Maps and Emergency Action Plans. It is critical for those agencies with dams to ensure they are participating in this county- wide process to create consistent plans that will work in coordination with each other.
	County and FEMA Recovery Exercise Update: WEROC staff is working with the County and FEMA on a Recovery Exercise on October 18, 2018 that involves responding to a 7.8 earthquake on the San Andreas Fault. The exercise scenario will begin 3 weeks after the earthquake and focus on recovery operations. The exercise is unique in that it is testing long term recovery concepts by focusing in on housing and infrastructure repair. Kelly participated in several follow-up calls with the County and FEMA to refine where water and wastewater utilities may be in the recovery process at this theoretical point in time and what concerns or issues may need to be resolved. This type of planning helps to ensure that the exercise is as realistic as possible, engages the WEROC staff and accomplishes needed policy discussions for future responses.

Coordination with the County of Orange (continued)	Ongoing: WEROC staff participation in the OA Agreement Revision Working Group. Update: Kelly met with the ISDOC Executive Committee to present the current status of the Working Group and OA Agreement revision process. Kelly informed the ISDOC Executive Committee that MWDOC has formally requested that WEROC be added to the OA Agreement as a direct voting member and discussed the potential of how this representation could impact ISDOC's representation to the OA Executive Board. Kelly will continue to work the ISDOC Executive Committee to receive a formal stance on changes to the OA Agreement to be presented to the OA Agreement Working Group.
	Kelly attended the AlertOC Working Group meeting to provide input into the OA Integrated Public Alert and Warning System (IPAWS)/Emergency Alert System (EAS)/AlertOC Request Form. The form is intended to allow agencies to request the County to send an emergency notification to the public on their behalf through any of the noted public notification. Currently IPAWS and EAS messages can only be sent by the County and four cities within OC. AlertOC can be used by most OC cities and public water systems, but this form can also be used for instances in which the local agencies for some reason cannot access AlertOC to send the message themselves. Water Utilities are being restricted from being able to request these types of notifications at this time as the county does not have water utility use of these systems written into the county-wide notification policy. Kelly is working with the County to remedy this gap in the policy.
EOC	The new 800 MHz Radio Control Station was installed at the WEROC SEOC.
Readiness	Kelly provided new MWDOC Staff training on the MWDOC Continuity of Operations Plan (COOP). This training is provided as needed quarterly for new staff. WEROC hosted First Aid, CPR, and AED training for MWDOC staff to meet the goal of all MWDOC staff being certified. WEROC will schedule this training on an
	annual basis. The training was made available to WEROC Member Agency staff as well. SOCWA, East Orange County WD, and City of Fullerton all sent staff.
	Janine Schunk attended an AlertOC training and met with the OA Staff in charge of the program to work through final corrections in the MWDOC/WEROC contact data within the reverse notification system.
Coordination with Outside Agencies	Kelly attended the California Office of Emergency Services (CalOES) Southern California Catastrophic Earthquake Plan (CAT Plan) briefing. The CalOES is updating the 2011 Plan and is asking for local government involvement in the process. It is important that WEROC participate in this planning process, as the State plans on using this document as a pre-scripted playbook for limited resources when responding to a major event.
	Kelly had the opportunity to meet with staff from the Santa Rosa Water Department to discuss their lessons learned in responding to the catastrophic Tubbs Fire in 2017. The Santa Rosa Water Department discovered Benzene contamination in their water system following the fire in certain areas of their community that had significant property loss. The Water Department went through a significant process of testing

Coordination with Outside Agencies (continued)	<ul> <li>their system, evaluating what caused the contamination, and how to restore their system. They discussed with Kelly how they managed the coordination of water quality testing and resources, public communications and the ongoing restoration of their system. Kelly will be sharing these lessons learned with the WEROC member agencies at the August WEROC quarterly meeting.</li> <li>WEROC hosted one of several Department of Homeland Security (DHS) Southern California Water RRAP Information Security Workshops. The Southern California Water Regional Resiliency Assessment Program (RRAP) project is focused on the impacts of extreme events on the resilience of Southern California's water systems. The goal of this project is to provide insights to the California stakeholders on how to improve the resilience and security of the water systems from extreme events. The Southern California Water RRAP project builds on and extends the work of the 2016 California Central Valley Water System RRAP project. The data collection phase of the Southern California Water RRAP project has been completed and the Key Findings developed. The purpose of this meeting was to provide a status update to California stakeholders on the Key Findings and the proposed Resilience Enhancement Options and implementation activities that may assist water utilities to address any findings found in the reports.</li> <li>Kelly attended the CalOES Mutual Aid Regional Advisory Committee (MARAC) Quarterly meeting. Topics included updates on current mutual aid efforts statewide, new planning resources available and a round table on current preparedness efforts and concerns.</li> </ul>
