

MEETING OF THE
BOARD OF DIRECTORS OF THE
MUNICIPAL WATER DISTRICT OF ORANGE COUNTY
Jointly with the
PUBLIC AFFAIRS AND LEGISLATION COMMITTEE

May 21, 2018, 8:30 a.m.
Conference Room 101

Teleconference Site:
Director Yoo Schneider will participate
via teleconference at the following location:
W Washington D.C. Hotel
515 15th Street NW
Washington, D.C. 20004
949.278.5761

Committee:

Director Dick, Chair
Director Thomas
Director Tamaribuchi

Staff: R. Hunter, K. Seckel, H. Baez,
D. Micalizzi, K. Davanaugh, T. Baca

Ex Officio Member: Director Barbre

MWDOC Committee meetings are noticed and held as joint meetings of the Committee and the entire Board of Directors and all members of the Board of Directors may attend and participate in the discussion. Each Committee has designated Committee members, and other members of the Board are designated alternate committee members. If less than a quorum of the full Board is in attendance, the Board meeting will be adjourned for lack of a quorum and the meeting will proceed as a meeting of the Committee with those Committee members and alternate members in attendance acting as the Committee.

PUBLIC PARTICIPATION

Public comments on agenda items and items under the jurisdiction of the Committee should be made at this time.

ITEMS RECEIVED TOO LATE TO BE AGENDIZED - Determine there is a need to take immediate action on item(s) and that the need for action came to the attention of the District subsequent to the posting of the Agenda. (Requires a unanimous vote of the Committee)

ITEMS DISTRIBUTED TO THE BOARD LESS THAN 72 HOURS PRIOR TO MEETING --

Pursuant to Government Code section 54957.5, non-exempt public records that relate to open session agenda items and are distributed to a majority of the Board less than seventy-two (72) hours prior to the meeting will be available for public inspection in the lobby of the District's business office located at 18700 Ward Street, Fountain Valley, California 92708, during regular business hours. When practical, these public records will also be made available on the District's Internet Web site, accessible at <http://www.mwdoc.com>.

DISCUSSION ITEMS

1. **LEGISLATIVE ACTIVITIES**
 - a. Federal Legislative Report (Barker)
 - b. State Legislative Report (BBK)
 - c. County Legislative Report (Lewis)
 - d. Legal and Regulatory Report (Ackerman)
 - e. MWDOC Legislative Matrix
 - f. Metropolitan Legislative Matrix

PRESENTATION

2. OVERVIEW OF MWDOC SOCIAL MEDIA ACTIVITIES (to be emailed separately)

ACTION ITEMS

3. TRAVEL TO WASHINGTON, DC TO COVER FEDERAL INITIATIVES
4. TRAVEL TO SACRAMENTO TO COVER STATE INITIATIVES

INFORMATION ITEMS (THE FOLLOWING ITEMS ARE FOR INFORMATIONAL PURPOSES ONLY – BACKGROUND INFORMATION IS INCLUDED IN THE PACKET. DISCUSSION IS NOT NECESSARY UNLESS REQUESTED BY A DIRECTOR.)

5. RECAP OF APRIL 19, 2018 WATER POLICY DINNER
6. UPDATE ON 2018 OC WATER SUMMIT (JUNE 1, 2018)
7. UPDATE RE WYLAND MAYOR'S CHALLENGE 2018
8. EDUCATION PROGRAM UPDATE
9. PUBLIC AFFAIRS ACTIVITIES REPORT

OTHER ITEMS

10. REVIEW ISSUES RELATED TO LEGISLATION, OUTREACH, PUBLIC INFORMATION ISSUES, AND MET

ADJOURNMENT

NOTE: At the discretion of the Committee, all items appearing on this agenda, whether or not expressly listed for action, may be deliberated, and may be subject to action by the Committee. On those items designated for Board action, the Committee reviews the items and makes a recommendation for final action to the full Board of Directors; final action will be taken by the Board of Directors. Agendas for Committee and Board meetings may be obtained from the District Secretary. Members of the public are advised that the Board consideration process includes consideration of each agenda item by one or more Committees indicated on the Board Action Sheet. Attendance at Committee meetings and the Board meeting considering an item consequently is advised.

Accommodations for the Disabled. Any person may make a request for a disability-related modification or accommodation needed for that person to be able to participate in the public meeting by telephoning Maribeth Goldsby, District Secretary, at (714) 963-3058, or writing to Municipal Water District of Orange County at P.O. Box 20895, Fountain Valley, CA 92728. Requests must specify the nature of the disability and the type of accommodation requested. A telephone number or other contact information should be included so that District staff may discuss appropriate arrangements. Persons requesting a disability-related accommodation should make the request with adequate time before the meeting for the District to provide the requested accommodation.

Washington Update
May 14, 2018*

Activity in the Congress

After several months of slow House Floor Activity -- the House has some major pieces of legislation coming to the Floor this spring and summer.

In addition to the renewed effort to try and pass most of the Appropriations Bills through the House chamber before the August break, the House will be working on a Rescissions bill which seeks to claw back authorized and unspent federal funding, a Farm Bill to reform the food stamp system, and a National Defense Authorization Act – the annual authorization bill which provides guidance to appropriators on defense spending. And in June, the House is planning to spend a week on the House Floor processing scores of Opioid bills.

Meanwhile the Senate is about to have an up or down vote on the CIA Director's Nomination –the person that will lead that agency and she will need to be confirmed by the US Senate by a simple majority vote.

Rescissions Package

Last month we reported on the significant funding bill that was signed into law in late March for the 2018 Fiscal Year. In a response to the President's conservative base, and in an effort to reduce some spending, the White House released a \$15.4 billion rescission request to Congress last week which targets unspent funds in a number of various Federal Departments. For the moment, water programs have not been hit hard with this announcement. The agencies affected the most were the Departments of Agriculture, Commerce, Energy, Health and Human Services, Housing and Urban Development, Justice, Labor, State, Transportation, and the Treasury.

The \$15 billion will come from years-old programs where there is still unspent money. The request is expected to target accounts going back many years, and as far back as the 2009 Stimulus bill. Of note here, and this may be causing difficulty with the release of certain water competitive grants, whenever the President submits a rescissions request, that spending is frozen automatically for 45 legislative days, or until Congress formally rejects it.

While there is no direct impact to FY 18 appropriations, Federal Managers may be uncertain as to their total funding allotments—and in the absence of certainty they may decide to wait and see what happens with the rescissions effort before releasing all of their grants.

For the Rescissions Package to pass the Congress, it will need to pass each House by a simple majority vote.

The GOP-dominated House is expected to easily clear the rescissions package, but even White House officials are less confident about its fate in the Senate.

Colorado River Management Issues:

The Secretary of the Interior is significantly involved in the management of the Colorado River system. The effects of a prolonged drought are still evident.

Federal weather forecasters (NOAA) predicted earlier this month that the Colorado River will carry less than half its average amount of water into Lake Powell this summer. The forecast is the fifth lowest in 54 years.

Lake Powell is one of two reservoirs that store water from the most important river in the southwestern United States. The area faces a difficult summer after April precipitation did not produce much mountain snow, which trickles down to feed the river.

The good news for now, officials said the levels in Lake Powell and Lake Mead will remain high enough that mandatory cutbacks on water usage won't be necessary this year.

The Colorado River supplies water to approximately 40 million people and to some 6,300 square miles of farm lands.

Senate 2018 Water Resources Development Act

The Senate has begun consideration of the 2018 WRDA Bill, a 200 page piece of legislation that provides direction and authorizations primarily to the Army Corps of Engineers.

Among the major issues contained within the legislation is a new two year authorization for the WIFIA Finance Program. Presently, the WIFIA program will need another authorization to function as the current authority expires in 2019. The bill is slated to be marked up in the Senate EPW Committee later this month. We have encouraged the continuation of the WIFIA Program in our meetings.

On the House side we have spoken with the House T&I Committee Water Staffer and the staffer indicates that the House is also working on a 2018 WRDA Bill. They expect to introduce the House Bill in the next several weeks and seek to move it through the House Floor by the August period. During the consideration of almost every WRDA Bill in recent memory, there has always been the temptation to deauthorize projects where there has been no construction take place. By deauthorizing sections, the Congress is then “free” to spend that amount of new money without it being scored negatively. Knowing that our Section 5039 \$40 Million Authorization could be a target on the chopping block, we were able to get Congressman Rohrabacher’s office to weigh in with the Committee and urge them to not deauthorize Section 5039. We are tracking this and will keep you posted on developments here.

Wildfire Policy

Given the rain fall earlier this year, there is a concern in certain parts of the West that there may be significant wildfires this summer. A wildfire funding “fix” was included in the Omnibus Funding Bill that passed in March and that fix put an end to the so-called “fire borrowing policy” that has gone on for years.

Highlights of the wildfire provision include a \$2.19 billion off-budget disaster fund for wildfires, which would grow to \$2.95 billion by 2027, and more flexibility to allow forest thinning in areas the Forest Service or the Bureau of Land Management deem at risk of wildfire.

The Omnibus language will give the Federal Agencies more flexibility to deal with fire management policies while sorting out issues around the Endangered Species Act — a complaint that some groups have raised regarding the thinning of forestry areas.

The impact of this provision will allow the Forestry Service to make long term plans -- for the thinning of forests or federal lands where it is appropriate--without the funding being raided in years where the wildfire budgets have not kept pace with the need for funding.

WIFIA Program Update

Earlier this year the U.S. Environmental Protection Agency (EPA) announced the availability of approximately \$5.5 billion in credit that could finance over \$11 billion in water infrastructure projects through the Water Infrastructure Finance and Innovation Act (WIFIA) program. Prospective borrowers seeking WIFIA credit assistance must submit a letter of interest by July 6, 2018.

5/14/18 JCB

Memorandum

To: Municipal Water District of Orange County
 From: Syrus Devers, Best Best & Krieger
 Date: May 21, 2018
 Re: Monthly State Political Report

Administrative Report

The May Revise contained no surprises and Governor Brown continued his long-running sermon on the need to prepare for the next recession. Consistent with the January Budget, the May Revise proposes to fill the Rainy Day Fund by the end of this year. Brown proposed three one-time spending increases to infrastructure (\$2 billion), homelessness (\$359 million), and mental health (312 million). Great pains were taken to point out that the budget projections assume a continued economic recovery lasting longer than any in history, and record unemployment through 2022. The previous record for unemployment staying below 5% was 11 months in 2006.

Legislative Report

The next major deadline for the Legislature is May 25th when the fiscal committees must report bills to their respective floors. After that there will be one short week (because of Memorial Day) to move a bill introduced in 2018 out of the house of origin. No policy committees can meet for any purpose the final week of May.

SB 2050 (Caballero-Small district consolidation): The water industry's answer to the water tax and the problems of disadvantaged water districts. The bill passed the Assembly Local Government Committee on a party-line vote with Vice Chair Marie Walderon voting against. The bill is now in Appropriations where it might be sent to the suspense file. The date of the suspense file hearing had not been announced as of the time this report was being prepared, but it could happen on Friday the 25th because of the holiday weekend.

SB 998 (Dodd-Water shut off prohibitions): Although significantly amended, several objectionable provisions remain. The Senate Judiciary analysis pointed out areas where the bill actually removed protections for low-income customers in current law. As before, Democrat committee members questioned the need for the bill but passed it as a work in progress. Republicans voted "no" and Sen. Henry Stern stayed off despite being present to vote. The bill is now in Appropriations. There are few, if any, significant negotiations with the author. Staff has all but indicated they've gone as far as they can. When potential Prop. 218 violations are pointed out, the response is "we'll work on it."

**SB 606 (Hertzberg, previously Skinner)/AB 1668 (Friedman) Water efficiency bill package:**

Victory celebrations are being planned. The administration had been signaling for some time that it would support a 13% credit for potable recycled water use, but Assembly Member Blanca Rubio negotiated a 15% credit for existing facilities which garnered significant new support for the bill. The votes split along party lines except for Senator Josh Newman who voted against AB 1668. Concurrence votes to send the bills to the Governor are tentatively set for this Thursday.

Tax on Water: The future of the budget trailer bill language will be determined later this week, possibly on the 23rd. The budget subcommittees are due to wrap up their final reports and will either put the language into a Budget Trailer Bill, which all now concede will be a 2/3rds vote bill, move a shell into a budget conference committee where leadership can control the outcome, or drop it for now and wait for an end-of-session play in August. The last option is the most likely but anything is possible. If the administration feels like they have the votes, they'll go for the Budget Trailer Bill now. If they feel OK but uncertain, they'll go the conference committee route and buy a little time and more control. Otherwise, they'll wait for an opening when tensions rise in August.

June Primary Elections

Intrigue in the Election for Governor
A series of Survey USA polls show the Governor's race is still in flux. Interestingly, Republican John Cox finds himself under attack by two different efforts perhaps for two different reasons. An independent expenditure committee funded by some of California's wealthiest activists are attacking John Cox motivated to elevate Antonio Villaraigosa into a top two finish with Gavin Newsome. The ads attack Cox on a litany of issues designed to suppress his Republican vote.

Gavin Newsome has "attacked" John Cox in recent TV ads for staking out conservative positions. Could this be a backhanded way to help John Cox? Who does Gavin Newsome really want to face in November?

U.S. Senate Race - A Looming Embarrassment?

Kevin De Leon's campaign has never caught on and according to Survey USA the biggest beneficiary might be Republican Patrick Little. Running with the ballot title of Civil Rights Advocate, Little is a white nationalist and holocaust denier. His elevation to the top two would be an embarrassment for the Republican brand.

Local Races of Major Interest

Orange County Supervisor District 4

None of the four major candidates: Doug Chaffee, Joe Kerr, Lucille Kring, or Tim Shaw have noticeably emerged from the pack. It is still anyone's guess which two will make the November runoff.

U.S. Congress - 39th District

A recent poll was conducted in the election to succeed Ed Royce. Purportedly, the Republican poll showed Royce backed candidate Young Kim in first place with Shawn Nelson, Bob Huff and Gil Cisnaros fighting it out for a second place finish. An "all Republican" run-off would be a major setback for Democrats "California plan" as a key component of regaining the U.S. House majority.

U.S. Congress - 48th District

Another recent poll seems to be bad news for long time incumbent Dana Rohrabacher. Although in first place, a meager 27% re-elect number seams to indicate an uphill climb in November. The surprise is who will come in second? Republican Scott Baugh or Democrat Hans Kierstand appear to be the most likely. A Rohrbacher-Baugh finale would be another disaster for Democrat House majority chances.

ORANGE COUNTY
LAFCO
EST. 1963

Update

MAY 9th LAFCO MEETING **CANCELLED** DUE TO LACK OF QUORUM
NEXT MEETING JUNE 13th

Although the May LAFCO meeting was cancelled, there is still substantial news this month. The election process for a special district member and for the alternate position is nearly over. Here are the remaining three key dates:

- MAY 25 All Special Districts must have their ballots submitted to LAFCO by 3PM
- MAY 31 Ballots are tabulated and results are announced
- JUNE 11 Oaths of Office are administered

Supervisors Scramble to Spend Money on Homeless Services

The last few months of Board meetings have been palpably tense. The elections haven't helped as Supervisor Spitzer finds himself increasingly at odds with the other four Supervisors and political gotcha is apparent at each Board meeting.

On top of that, the homeless issue has created ceaseless attacks of the Board by homeless advocates who for several years have increasingly attacked the Board for "dragging its feet".

A Voice of OC audit in early March revealed the County had an extra \$200 million socked away; much of what could have been used addressing the homeless issue. That money is on top of roughly \$700 million spent annually on low income but not homeless individuals.

In any event, the Board has ramped up a panaply of spending proposals including these agendized on the May 22, 2018 meeting.

Items:

23. Approve agreement with Southland Integrated Services, Inc. for Integrated Community Services, 7/1/18 - 6/30/19 (\$1,197,000); authorize Director or designee to exercise cost contingency increase not to exceed 10% under certain conditions and execute agreement - Districts 1 and 4

25. Approve selection of and agreements with California Treatment Services Recovery Solutions of Santa Ana (\$5,227,476) and Western Pacific Med-CORP (\$10,430,060) for Narcotic Replacement Therapy Treatment services, 7/1/18 - 6/30/20; authorize Director or designee to exercise cost contingency increase not to exceed 10% under certain conditions and to execute agreements - Districts 1, 2 and 4
26. Approve selection of and agreement with Waymakers for Full Service Partnership/Wraparound services for youthful offenders, 7/1/18 - 6/30/21 (\$15,685,503); authorize Director or designee to exercise cost contingency increase not to exceed 10% under certain conditions and to execute agreement - Districts 1 and 2
28. Approve selection of and agreement with Orange County Association for Mental Health dba Mental Health Association of Orange County for Multi-Service Center services for homeless mentally ill adults, 7/1/18 - 6/30/21 (\$5,477,592); authorize Director or designee to exercise cost contingency increase not to exceed 10% under certain conditions and to execute agreement - District 1
29. Approve selection of and agreements with Grandma's House of Hope (\$3,635,276) and Friendship Shelter (\$936,474) for Homeless Bridge Housing services, 7/1/18 - 6/30/21; authorize Director or designee to exercise cost contingency increase not to exceed 10% under certain conditions and to execute agreements - Districts 1, 4 and 5
30. Approve master agreement and selection of Clean Path Behavioral Health, Colette's Children's Home, The Villa Center, Grandma's House of Hope, New Life Spirit, Inc., Roque Center, Inc., and Step House Recovery for recovery residence services, 7/1/18 - 6/30/21 (aggregate total \$2,400,000); renewable for two additional one-year terms; authorize Director or designee to exercise cost contingency increase not to exceed 10% under certain conditions and to execute individual agreements - Districts 1, 2, 3 and 4
35. Approve annual updates to Three-Year Program and Expenditure Plan for Mental Health Services Act, Proposition 63 programs and services, 7/1/18 - 6/30/19 (\$218,897,166); direct Human Resource Services to amend master position control to add 58 positions to Health Care Agency; and authorize Director or designee to execute annual updates to Three-Year Plan - All Districts
36. Approve selection of and agreements with Child Guidance Center, Inc. (\$23,199,219), Olive Crest (\$6,920,724), Pathways Community Services, LLC (\$4,682,016), Seneca Family of Agencies (\$13,707,945), South Coast Children's Society, Inc., dba South Coast Community Services (\$3,314,301), Wayfinders Supportive Solutions (\$3,101,091) and Western Youth Services (\$31,314,072) for Behavioral Health Outpatient services for Children and Youth, 7/1/18 - 6/30/21; and authorize Director or designee to exercise cost contingency increase not to exceed 10% under certain conditions and to execute agreements - All Districts (Continued from 4/10/18, Item 21; 4/24/18, Item S53A; 5/8/18, Item 35)

Good news for California rainfall?

Southwest Drought Continues to be a Problem

The May 8th drought map released by U.S. Drought Monitor displays the intensity of the drought that much of the American Southwest is currently facing.

Map for May 10, 2018

Data valid: May 8, 2018 | Author: [David Simeral](#), Western Regional Climate Center

The data cutoff for Drought Monitor maps is each Tuesday at 8 a.m. EDT. The maps, which are based on analysis of the data, are released each Thursday at 8:30 a.m. Eastern Time.

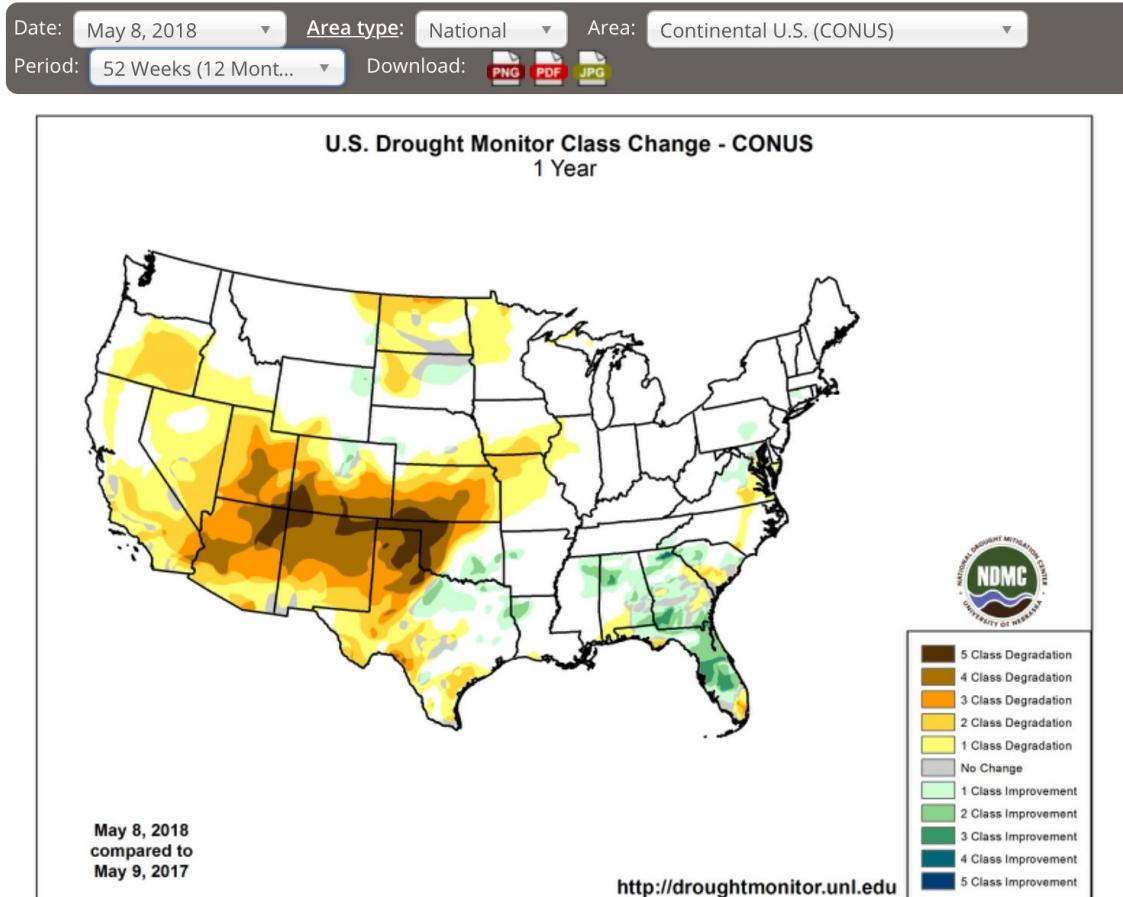

Intensity and Impacts

	None		D2 (Severe Drought)		- Delineates dominant impacts
	D0 (Abnormally Dry)		D3 (Extreme Drought)		S - Short-Term impacts, typically less than 6 months (agriculture, grasslands)
	D1 (Moderate Drought)		D4 (Exceptional Drought)		L - Long-Term impacts, typically greater than 6 month (e.g. hydrology, ecology)

The map below depicts the change in drought level status over the course of one year. Heavily impacted areas include Western Oklahoma, Northern Texas and the Four Corners area. Each has suffered the maximum of five class degradation. The Four Corners area is of particular concern to Californians as it is one of the key drainage areas for the Colorado River.

U.S. Drought Monitor Change Maps

[Maps](#) / [Change Maps](#)

ACKERMAN CONSULTING

Legal and Regulatory

May 21, 2018

1. Rice Helps Wetlands: About 170 years ago, the Central Valley of California was a vast wetlands with water and birds all over the place. Since then as a result of the Gold Rush and civilization, that has all changed. Farms, cities, dams and roads have had an impact on birds, migration, bugs and all things associated with wetland territories. But hope and change are on the way. And rice farmers may be the answer. California's rice industry is the second largest in the nation. It is also a heavy user of water. Studies and cooperation between scientists and farmers have shown that by minor changes to water control when flooding the rice fields, wetlands, similar to those of many years ago, can be replicated. Migratory birds of all kinds are returning, as well as flora and fauna from days gone by. The salmon population is also being helped.

2. Napa Watershed v Wineries: Napa County will have a measure on its June ballot which will potentially pit environmentalists versus wineries. Napa used to have a vast oak woodlands on its valley floor. That woodlands played an important role in habitat balance and water retention. Now, about 95% of those oaks are gone, due primarily to the wine industry. Current regulations controls further oak tree removal and has requirements to replace trees whenever one is removed. This measure would be much more stringent and has been criticized as anti-agriculture and anti-business. It should be closely watched as there are environmentalists and farmers on both sides of the issue.

3. Dam Project Finds Whales: A new dam is being constructed at Calaveras Reservoir near Milpitas and Fremont. The discoveries from the digging including whale skulls and giant shark teeth date back 15 million years when that portion of California (from Bay Area to Bakersfield) was under water. The fossil count is a 1500 and climbing and will reside at UC Berkeley. The project is a \$800 million effort by SF PUC and is part of the Hetch Hetchy water system. Some of the shark teeth belong to the megalodon species, related to the great white shark, but growing to 50 feet in length. In this JAWS movie, the shark wins!!

4. Desal in Vegas: The Southern Nevada Water Authority is considering investing in seawater desalination as part of its long term strategy. It is discussing this with Mexico. The offer was to help fund a desal plant in Mexico in exchange for a portion of Mexico's water rights on the Colorado River. Nevada also plans to tap some old aquifers in northern Nevada to plan for their next 50 years of demand. Las Vegas is still growing at a rapid pace and the Authority is planning for that growth. This Mexico solution is also being considered by Arizona and the two

states may form a partnership in the deal. The northern Nevada plan is being contested by the Ely Shoshone Tribe. Nevada is also considering a new international airport in the Ivanpah Valley which will increase water demand in the area from tourism.

5. Earthquake Ready: From San Francisco to Los Angeles and points in between, water world is making preparations for the next Big One and even the next Little Ones. In northern California, the main concern is the Hayward Fault and not the San Andreas Fault. That is because the Hayward Fault has not had any significant movement in a long time and runs through more populated areas. East Bay MUD and SF PUC are the main players in this region and both have spent billions of dollars for seismic upgrades. Some of the engineering methods involve systems that allow the earth to move around the 6' and 9' pipes without hurting them. Another system has ball joints and slip joints that allow pipes to move without breaking. Some pipes in extremely high risk areas allow pipes to shift within concrete tunnels. Other pipes are built on rollers to achieve the same outcome. Both East Bay MUD and MWD have six month emergency supply for their respective regions. They also have repair supplies located at key locations in anticipation of emergencies. The Delta, as we know, is the most vulnerable part of the system, which is why the Water Fix is so important.

6. Water Board Member Fined: San Bernardino Valley MWD board member Gil Navarro was recently fined \$36,500 by the FPPC for many matters including failure to disclose his legal defense fund. Navarro was an Assembly candidate in 2010 and 2014. He won election to the water board in 2012 while still a member of the San Bernardino County school board. He tried to serve in both offices until a Judge removed him from the school board. He kept a legal defense fund open even after he paid all legal bills. He failed to file required donor list for this fund. He also failed to file required Assembly reports. The water board has stripped Navarro from his leadership positions.

7. Plants Talk re Drought: Jet Propulsion Lab (JPL) has done it again. They will launch the "space botanist" into orbit. The ECOSTRESS is a \$30 million thermometer about the size of a small bus which will attach to the International Space Station in June of this year. It can measure areas on earth as small as 230 feet with respect to temperature and carbon dioxide content and change. In short, the hotter the plant, the less CO₂ is consumed. It can take multiple measurements in one day, thereby showing real time action and reaction to climate changes. In specific, it will show plants reaction to water conditions, wet and dry. This method can help with many questions: which plants are most drought tolerant, which ones are strongest and most adaptable, which plants die first, when will drought occur. One current example of the utility of ECOSTRESS is the many types of lettuce grown in California. Some of them grow stronger with less water. Right now the farmers guess which is the right type. With this new data, they can be exact.

8. SF Water Rates Up: SF PUC has approved significant rate hike for the next four years. The average rate increase for their region is 7.4. to 8.4 per cent per year for the next four years. That equates to average households per month charge going from \$108 to \$149 in 2022. This includes water and sewer and covers large upgrades to their systems plus seismic retrofits.

9. San Diego Dry: If things continue, this could be the driest year on record for San Diego rainfall. This may tie the record low set in 1850 (those measurements may be as exact as today's) Average rainfall for a year is 10.3 inches. This year they are at 3.1 with prior low being 3.3. There are still a few months left but the betting odds are 50/50. The atmospheric rivers that have been flowing in California lately have all missed San Diego.

10. LA Water Tax?: LA County is considering putting a measure on the November ballot to tax property owners to capture stormwater runoff.....again. They considered this in 2013 but backed off due to large opposition. The tax would be on average \$73 for a homeowner and \$14,000 for a big box store. This would require a 2/3 vote and is already being questioned by the LA Chamber of Commerce and some cities who already have such a tax in place.

11. San Diego Seeks Reimbursement: Recent California law requires water agencies to test public schools for lead. Most all counties have complied, including Orange County, but have not necessarily checked all of their schools. Thus far these counties have tested the schools noted: Orange County 169, LA County 193, Alameda County 360, San Diego 552. San Diego's cost has been over \$400.000. Since this act has been mandated by the State, San Diego has filed a claim with the Commission on State Mandates for reimbursement. A hearing is set for November. I am sure all will be watching carefully. It should be noted that only 4 schools in San Diego exceeded the lead level.

A. Priority Support/Oppose

Measure	Author	Topic	Status	Brief Summary	Position	Priority	Notes 1
<u>AB 1668 Friedman</u> D	Water management planning.	5/14/2018-Read third time. Passed. Ordered to the Assembly.		Would require the State Water Resources Control Board, in coordination with the Department of Water Resources, to adopt long-term standards for the efficient use of water, as provided, and performance measures for commercial, industrial, and institutional water use on or before June 30, 2022. The bill would require the department, in coordination with the board, to conduct necessary studies and investigations and make recommendations, no later than October 1, 2021, for purposes of these standards and performance measures.	Support	A. Priority Support/ Oppose	Failed to get even one AYE vote. Almost failed for lack of a motion.
<u>AB 1876 Frazier D</u>	Sacramento-San Joaquin Delta: Delta Plan: administration	4/27/2018-Failed Deadline pursuant to Rule 61(b)(5). (Last location was W.,P. & W. on 1/29/2018)		The Sacramento-San Joaquin Delta Reform Act of 2009 establishes the Delta Stewardship Council, which consists of 7 members, and requires the council to develop, adopt, and commence implementation of a comprehensive management plan for the Delta, known as the Delta Plan. This bill would make the provisions establishing the Delta Stewardship Council operative on July 1, 2020. The bill would provide for the Delta Protection Commission, on that date, to succeed to, and to be vested with, the duties, powers, purposes, responsibilities, and jurisdiction vested in the council as of June 30, 2020.	Opposition	A. Priority Support/ Oppose	
<u>AB 2050 Caballero</u> D	Small System Water Authority Act of 2018.	5/10/2018-Re-referred to Com. on APPR.		Would create the Small System Water Authority Act of 2018 and state legislative findings and declarations relating to authorizing the creation of small system water authorities that will have powers to absorb, improve, and competently operate noncompliant public water systems. The bill, no later than March 1, 2019, would require the state board to provide written notice to all public agencies, private water companies, or mutual water companies that operate a public water system that has either less than 3,000 service connections or that serves less than 10,000 people, and are not in compliance with one or more state or federal primary drinking water standard maximum contaminant	Support	A. Priority Support/ Oppose	

Item 1e

			levels as of December 31, 2018, and for 4 consecutive quarters, as specified.		
<u>SB 606</u>	<u>Hertzberg</u> D	Water management planning.	Would require an urban retail water supplier to calculate an urban water use objective no later than November 1, 2023, and by November 1 every year thereafter, and its actual urban water use by those same dates. The bill would require an urban retail water supplier to submit a report to the department for these purposes by those dates. The bill would authorize the State Water Resources Control Board to issue information orders, written notices, and conservation orders to an urban retail water supplier that does not meet its urban water use objective, as specified. The bill would authorize the board to waive these requirements for a period of up to 5 years, as specified.	Support A. Priority Support/ Oppose	
<u>SB 623</u>	<u>Monning</u> D	Water quality: Safe and Affordable Drinking Water Fund.	Would establish the Safe and Affordable Drinking Water Fund in the State Treasury and would provide that moneys in the fund are continuously appropriated to the State Water Resources Control Board. The bill would require the board to administer the fund to secure access to safe drinking water for all Californians, while also ensuring the long-term sustainability of drinking water service and infrastructure. The bill would authorize the state board to provide for the deposit into the fund of federal contributions, voluntary contributions, gifts, grants, bequests, and settlements from parties responsible for contamination of drinking water supplies.	Opposition A. Priority Support/ Oppose	
<u>SB 998</u>	<u>Dodd</u> D	Discontinuation of residential water service: urban and community water systems.	Would require an urban and community water system, defined as a public water system that supplies water to more than 200 service connections, to have a written policy on discontinuation of water service to certain types of residences for nonpayment available in prescribed languages. The bill would require the policy to include certain components, be available on the system's Internet Web site, and be provided to customers in writing, upon request. The bill would provide for enforcement of these provisions, including making a violation of these provisions punishable by a civil penalty issued by the board in an amount not to exceed \$1,000 for each day in which the violation occurs.	Oppose unless amended A. Priority Support/ Oppose

**Metropolitan Water District of Southern California
State Legislation Matrix 5/7/2018**

Bill Number Author	Amended Date; Location	Title-Summary	MWD Position	Effects on Metropolitan
AB 18 E. Garcia (D) Sponsor: Author	Amended 8/30/17 Senate Appropriations Committee	California Clean Water, Climate, Coastal Protection and Outdoor Access for All Act of 2018: Enacts the California Clean Water, Climate, Coastal Protection and Outdoor Access for All Act of 2018, which places a general obligation bond of \$3.470 billion before voters at the June 5, 2018, statewide primary election.	SUPPORT AND SEEK AMENDMENTS based upon Board-adopted policy principles dated June 2003	Recognizes the need for additional state funding for water infrastructure at time when significant water investments are acutely necessary. Requested amendments include: state support for voluntary settlements with upstream water users, both for habitat improvement and flow enhancements; additional funding for development of local water supplies; increased funding for new water treatment systems, extensions of service or consolidations for non-compliant water systems located in disadvantaged communities; flood protection; and Salton Sea restoration, consistent with CNRA Salton Sea Management Plan.
AB 732 Frazier (D) Sponsor: Author	Amended 5/30/17 Senate Appropriations Committee	Delta Levee Maintenance: Delta levee maintenance program was established for reimbursement of costs incurred in connection with maintenance or improvement of projects or non-project levees in the Sacramento-San Joaquin Delta. AB 732 extends the current 75% state reimbursement rate for Delta levee maintenance costs in excess of \$1,000 per mile, until July 1, 2020.	WATCH based upon prior position on SB 554 (Wolk) from 2016	Metropolitan dropped its opposition to AB 732 after the Delta Stewardship Council directed staff to enter into a Memorandum of Understanding with the Central Valley Flood Protection Board (CVFPB) and DWR to develop and recommend a new set of guidelines, including a methodology and local agency requirements for evaluating a local agency's ability to pay for cost of levee maintenance or improvements under the Delta Levee Subventions Program.

Item 1f

**Metropolitan Water District of Southern California
State Legislation Matrix 5/7/2018**

Bill Number Author	Amended Date; Location	Title-Summary	MWD Position	Effects on Metropolitan
AB 869 Rubio (D) Sponsor: Author	Amended 8/24/17 Senate Natural Resources and Water Committee	Recycled Water: Would require long-term standards for urban water use conservation and water use to include credit for recycled water, as specified. Would state that water conservation does not include curtailment of use of recycled water. Would prohibit urban retail water supplier from being required to reduce amount of recycled water it produces, sells or distributes for beneficial potable or nonpotable uses during period when water conservation measures are in effect.	SUPPORT IF AMENDED based upon Board-adopted legislative policy priorities dated 12/12/17	AB 869 is consistent with provisions found in SB 606 (Skinner/Hertzberg) and AB 1668 (Friedman) Metropolitan, with a few distinctions. Recognizes that recycled water is an efficient use and should be treated as such in any new water use efficiency targets, although expands credit specified in SB 606 and AB 1668 to include nonpotable recycled water. Attempts to override authority extended to Governor under Emergency Services Act regarding curtailment of potable and nonpotable recycled water.
AB 1270 Gallagher (R) Sponsor: Author		Dams and Reservoirs – Inspections and Reporting: Requires DWR to inspect dams, reservoirs, and critical appurtenant structures within its jurisdiction once per fiscal year, with the exception of low hazard potential dams which shall receive inspections, at a minimum, every two fiscal years. Also requires owners to disclose information sufficient to enable DWR to determine conditions of dams, reservoirs, and critical appurtenant structures regarding their safety and to perform, at the owner's expense, other work necessary to secure maintenance and operation that will safeguard life and property.	WATCH (1/22/18)	Based upon Metropolitan's decades of experience in building, monitoring, maintaining and operating more than 20 dams within the district's regional water distribution system, the bill addresses security and inspection concerns previously identified.

**Metropolitan Water District of Southern California
State Legislation Matrix 5/7/2018**

Bill Number Author	Amended Date; Location	Title-Summary	MWD Position	Effects on Metropolitan
AB 1323 Weber (D) Sponsor: San Diego County Water Authority	Amended 5/30/17 Senate Appropriations Committee	Water Efficiency Targets: Provides that if a statute is not chaptered during 2017-18 legislative session to establish water conservation targets and long-term drought contingency planning, DWR shall convene stakeholder workgroup by February 1, 2019, to develop, evaluate and recommend proposals for establishing new water use targets for urban retail water suppliers.	SUPPORT based upon Board-adopted legislative policy priorities dated 12/12/17	Metropolitan supports state agency implementation of a framework consistent with the water use efficiency goals set by the Legislature by working through a stakeholder process to ensure the goals are met in a way that recognizes the unique challenges of agencies throughout California.
AB 1654 Rubio (D) Sponsor: Regional Water Authority and Irvine Ranch Water District	Amended 7/12/17 Senate Rules Committee	Drought Contingency Planning: As a step towards developing a single legislative proposal, the bill was amended in the Senate Natural Resources and Water Committee to state the intent of the Legislature to enact legislation necessary to help make water conservation a California way of life.	WATCH based upon Board-adopted legislative policy priorities dated 12/12/17	Author declined to incorporate work product stemming from legislative negotiations during summer recess [see summary of SB 606 (Skinner/Hertzberg) and AB 1668 (Friedman)].
AB 1667 Friedman (D) Sponsor: Author	Amended 7/3/17 Senate Natural Resources and Water Committee	Water Management Planning: Reflects the Brown Administration's June 2017 proposal to implement Executive Order B-37-16 and the framework contained in the report Making Water Conservation a California Way of Life for urban and agricultural water usage and drought planning.	SUPPORT IF AMENDED based upon Board-adopted legislative policy priorities dated 12/12/17	AB 1667 is consistent, in part, with the policy priorities adopted by Metropolitan's board. There are specific provisions, however, that require revisions to merit full support.

**Metropolitan Water District of Southern California
State Legislation Matrix 5/7/2018**

Bill Number Author	Amended Date; Location	Title-Summary	MWD Position	Effects on Metropolitan
AB 1668 Friedman (D) Sponsor: Author	Amended 5/3/18 Senate Rules Committee	Water Management Planning: Proposes targets for indoor residential water use and performance measures for CII water. References the Model Water Efficient Landscape Ordinance (MWLEO) for outdoor water use. Also clarifies SWRCB enforcement authority for non-compliance; updates agricultural water use efficient requirements; and provides for countywide and small system drought planning.	SUPPORT based upon Board-adopted legislative policy priorities dated 12/12/17	AB 1668 recognizes the Legislature's critical role in providing appropriate oversight to implementation of water conservation efforts by the Department of Water Resources and the State Water Resources Control Board, while preserving local decision making. Bill includes a water-budget based target-setting approach that could be customized to unique location conditions and could be equally effective in reducing water use. Recent amendments ensure CII performance measures are cost effective and technically feasible; clarify application of enforcement provisions and MWLEO requirements; and authorizes a 15% bonus incentive for existing potable reuse projects, as defined.
AB 1876 Frazier (D) Sponsor: Author	Amended 4/3/18 Assembly Water, Parks and Wildlife Committee; failed passage on 4/24/18	Delta Plan: Seeks to abolish the Delta Stewardship Council and proposes to transfer its duties on July 1, 2020, to the Delta Protection Commission, a body that is dominated by in-Delta interests.	OPPOSE based upon June 2007 Board-adopted Delta Action Plan	The Delta is the largest estuary in the western hemisphere and the location of the largest water delivery systems in the nation. Comprehensive and balanced Delta planning and oversight cannot be accomplished by one region seeking to eliminate the voices of all others. AB 1876 represents a giant step backwards in a statewide approach to resolving and balancing statewide interests.

**Metropolitan Water District of Southern California
State Legislation Matrix 5/7/2018**

Bill Number Author	Amended Date; Location	Title-Summary	MWD Position	Effects on Metropolitan
AB 2050 Caballero (D) Sponsors: Eastern MWD and CA Municipal Utilities Association	Amended 4/17/18 Assembly Appropriations Committee	Small System Water Authority Act of 2018: Proposes to merge small non-compliant water systems, defined as a system with less than 3,000 service connections or serving less than 10,000 people, even when the systems are non-contiguous, into a larger, more robust public water system to take advantage of improved technical, managerial, and financial capacities associated with larger water systems.	SUPPORT as adopted by Board on 3/13/18	While laws have been enacted over the past several years to address access to safe drinking water, immediate and lasting changes to the governance structure of chronically noncompliant small systems are still necessary to protect public health and safety. AB 2050 provides another tool which could lead to more sustainable water systems that can effectively deliver safe and affordable drinking water to its residents.
AB 2283 Holden (D) Sponsor: Author	Introduced 2/13/18 Assembly Appropriations Committee Suspense File	Income Tax Exclusions – Turf Removal Water Conservation Programs: Would extend, until December 1, 2024, the exclusion from gross income of any amount received as a rebate, voucher or other financial incentive issued by a local water agency or supplier for expenses incurred for participation in a turf removal water conservation program.	SUPPORT based upon past support of AB 2434 (Gomez), Chapter 738, Statutes of 2014	Extending the existing tax exclusion by five years will provide relief to state taxpayers and could encourage participation in turf removal programs. In January 2014, Metropolitan added turf removal to the SoCal Water\$mart Regional Program, making it available to customers throughout the service area.
AB 2543 Eggman (D) Sponsor: Author	Amended 3/13/18 Senate Rules Committee	State Agencies - Infrastructure Project Budget and Schedule: Would require state agencies to publicly report significant changes in the cost or schedule of large and complex infrastructure projects. The bill seeks to incorporate a recommendation from the October 2017 report on CA WaterFix by the State Auditor General.	OPPOSE based upon June 2007 Board-adopted Delta Action Plan	While an open and transparent project delivery process is important to public agencies and their customers, the bill is vague in its terminology and application to state infrastructure projects. Project opponents could use an alleged violation of the reporting requirement to bring any action to halt, delay or modify a project.

Metropolitan Water District of Southern California
State Legislation Matrix 5/7/2018

Bill Number Author	Amended Date; Location	Title-Summary	MWD Position	Effects on Metropolitan
AB 2545 Gallagher (R) Sponsor: California Farm Bureau Federation	Amended 4/25/18 Assembly Appropriations Committee Date of Hearing: 5/9/18	Lake or Streambed Alteration Agreements: Defines a river and stream for purposes of determining if a lake or streambed alteration agreement (LSAA) is required. Specifies that the definition excludes artificial water conveyance infrastructure, such as canals, flood control channels, irrigation and drainage ditches.	SUPPORT IF AMENDED based upon Board-adopted legislative policy priorities dated 12/12/17	AB 2545 still includes language that would expand California Department of Fish and Wildlife's jurisdiction over rivers and streams to include any land currently or formerly occupied by riparian vegetation, which may extend well beyond the bed or banks of rivers and streams. Would require potentially costly subsurface and historical records searches to determine the extent of jurisdiction.
AB 2649 Arambula (D) Sponsor: Author	Amended 4/25/18 Assembly Appropriations Committee	Water Rights – Water Management: Would declare that the diversion of water to underground storage, including the diversion of water for groundwater recharge, constitutes a diversion of water for beneficial use for which an appropriation may be made if the diverted water is put to beneficial use. Also provides that the beneficial use of water diverted to underground storage is not limited to uses requiring subsequent extraction or release of the stored water and may include beneficial uses such as protection of water quality made while the water is in underground storage. Would also codify the provisions of Executive Order B-39-17 to authorize the State Water Resources Control Board to continue issuing temporary permits for storage or groundwater recharge.	OPPOSE UNLESS AMENDED based upon prior opposition to AB 647 (Eggman) from 2015 and AB 1427 (Eggman) from 2017	Exempting new water diversions from CEQA would likely cause significant unintended consequences that harm the environment and the public. Could allow a water rights holder, who is not currently using their full water right, to hoard unused water, exacerbating over-allocation of water in California and injuring existing water rights holders and other legal water users. Additionally, an ACWA workgroup produced an administrative solution for moving forward to permit groundwater recharge when flows are in excess conditions (i.e. flow levels at or above the 90th percentile of recorded flows). AB 2649 disregards nearly a year of collaborative discussions that produced a constructive way forward.

Metropolitan Water District of Southern California
State Legislation Matrix 5/7/2018

Bill Number Author	Amended Date; Location	Title-Summary	MWD Position	Effects on Metropolitan
AB 2697 Gallagher (R) Sponsor: California Waterfowl and Pheasants Forever	Amended 4/17/18 Assembly Appropriations Committee	Water Transfers – Idled Agricultural Lands: Would require the Wildlife Conservation Board to establish an incentive program to encourage landowners to voluntarily cultivate or retain cover crops or other upland vegetation on idled lands to provide wildlife habitat for waterfowl and other game birds. Also sets forth that the Department of Water Resources (DWR) could require the abatement of any nonirrigated cover crops or vegetation that are actively transpiring water beyond that associated with normal annual precipitation. Participating landowners would not be subject to additional regulations for subsequent manipulation or removal of nonirrigated cover crops or vegetation during normal agricultural activities.	OPPOSE UNLESS AMENDED based upon past opposition to AB 472 (Frazier) in 2017	Although supportive of the incentive program, AB 2697 would make it more difficult for DWR to ensure that water transfers are legitimate by shifting the burden of proof from the transferor to DWR regarding harm caused by allowing excess vegetation to remain. Existing law already strikes a balance between encouraging cover crops and protecting water transfers.
AB 3170 Friedman (D) Sponsor: Author	Amended 4/16/18 Assembly Appropriations Committee Suspense File	Sales Tax Exemption: Authorizes, until January 1, 2024, an annual three-day exemption from state sales tax for the purchase of qualified water efficiency products, including: rain barrels with a capacity of 100 gallons or more; soaker or drip-irrigation hoses; weather-based irrigation controllers; soil moisture-based control technologies; mulch and compost; WaterSense products; low-water use plants; and a permeable ground cover surface, other than living turf grass, that allows water to reach underground basins, aquifers, or water collection points.	SUPPORT based upon Board-adopted legislative policy priorities dated 12/12/17	Metropolitan and its member agencies will continue to strengthen their conservation outreach and rebate programs, focusing on new ways to help homeowners, businesses and communities change outdoor landscapes and gardens, where most water typically is used. AB 3170 will provide further financial incentives to make this transformation a reality and will further facilitate an aggressive approach to lowering water use.

Metropolitan Water District of Southern California
State Legislation Matrix 5/7/2018

Bill Number Author	Amended Date; Location	Title-Summary	MWD Position	Effects on Metropolitan
SB 606 Skinner (D) and Hertzberg (D) Sponsor: Authors	Amended 4/5/18 Assembly Floor	Water Management Planning: Provides for the calculation of water use objectives by urban retail water supplies. Specifies SWRCB enforcement tools and timelines. Contains revisions to UWMP reporting and filing requirements. Provides for preparation of Water Shortage Contingency Plans and annual water supply and demand assessment by urban wholesaler and retailer water suppliers. Measure also recognizes that recycled water is an efficient use and should be treated as such in the calculation for new water-use efficiency targets.	SUPPORT based upon Board-adopted legislative policy priorities dated 12/12/17	Preserves the legislative process for setting water-use efficiency goals yet recognizes the role of state agencies to implement a detailed framework consistent with those goals. Bill contains numerous opportunities for stakeholder engagement to ensure requirements of the measure are met in a way that recognizes the unique challenges of water agencies throughout California. SB 606 preserves local and regional decision-making and control in determining actions to avoid shortage or mitigate shortage impacts.
SB 623 Monning (D) Sponsor: Community Water Center and Western Growers Association	Amended 8/21/17 Assembly Rules Committee	Safe and Affordable Drinking Water Fund: Would establish the Safe and Affordable Drinking Water Fund to assist communities and individual domestic well owners who lack access to safe drinking water, particularly those in small, rural disadvantaged communities. Fund may pay for replacement water; domestic well testing and investigations; planning, construction, operation and maintenance costs for system improvements; and outreach to eligible communities. Revenue for the Fund would come from an agricultural fee on fertilizer sales and dairy operations and a permanent tax on ratepayers of urban retail water systems.	OPPOSE UNLESS AMENDED based upon Board-adopted legislative policy priorities dated 12/12/17	Generally speaking, the water industry agrees with the intent of SB 623. The lack of access to safe drinking water in certain disadvantaged communities is a public health and social issue that the state must address. Potential revenue sources identified for the Fund should reflect the “beneficiary pays” principle, as opposed to a fee or assessment levied on water agencies for funding the broader public benefits.

Metropolitan Water District of Southern California
State Legislation Matrix 5/7/2018

Bill Number Author	Amended Date; Location	Title-Summary	MWD Position	Effects on Metropolitan
SB 919 Dodd (D) Sponsor: The Nature Conservancy	Amended 3/15/18 Senate Appropriations Committee Suspense File	Water Resources – Stream Gages: SB 919 would require the Department of Water Resources (DWR) to develop a plan to deploy a network of stream gages that includes a determination of funding needs and opportunities for reactivating existing gages. In consultation with its sister agencies and other interested parties, DWR is required to prioritize the deployment of stream gages based upon gaps in the existing system.	SUPPORT based upon Board-adopted legislative policy priorities dated 12/12/17 and June 2007 Board-adopted Delta Action Plan	A robust and accurate data collection system will support informed decision-making regarding water management. Having a more reliable and accurate system of stream gages can also help integrate groundwater recharge during high-flow events. Good information and science leads to sound public policy on water management.
SB 1301 Beall (D) Sponsor: Santa Clara Valley Water District	Amended 4/9/18 Senate Appropriations Committee Date of Hearing: 5/14/18	State Permitting – Processing Procedures: Would require the Department of Fish and Wildlife, the San Francisco Bay Conservation and Development Commission, the California Coastal Commission, the State Water Resources Control Board, and a California Regional Water Quality Control Board, to keep accurate records of processing times for permits that each agency issues for a dam safety project or flood risk reduction project beginning July 1, 2020. Defines dam safety and flood risk reduction projects and makes these projects eligible for interagency collaboration for the purpose of expediting project permitting.	SUPPORT based upon Board-adopted legislative policy priorities dated 12/12/17	SB 1301 will help identify delays and gaps in current permitting processes. The bill will also establish a more efficient permitting process for dam safety and flood protection projects by facilitating a multi-agency pre-application and model fee-for-service agreement. Due to understaffing at state permitting agencies, deadlines for permitting are often missed, particularly for large projects that yield the most public safety benefit.

**Metropolitan Water District of Southern California
State Legislation Matrix 5/7/2018**

Bill Number Author	Amended Date; Location	Title-Summary	MWD Position	Effects on Metropolitan
SB 1493 Senate Committee on Natural Resources and Water Sponsors: Multiple	Amended 4/10/18 Assembly Desk	State Lands: Represents the Senate Natural Resources and Water Committee omnibus “code clean-up” bill. Sections 23 and 24 would repeal the State Lands Commission’s (SLC) Statutory Trust Grant issued to Metropolitan and returns the tide and submerged lands at Bolsa Chica to the State of California. Metropolitan has not, and does not intend to, move forward with projects as defined in the grant.	WATCH based on MWD Real Property and Asset Management Committee discussion on 12/12/17	The tide and submerged lands granted to Metropolitan in 1967 by the State Lands Commission are subject to a reversionary interest. The state is choosing to exercise that interest to focus its resources on other matters rather than annually monitoring and reviewing the inactive status of the grant.

SUBJECT: Overview of MWDOC's Social Media Activities

STAFF RECOMMENDATION

Staff recommends the Public Affairs & Legislation Committee: Receive and file this report.

COMMITTEE RECOMMENDATION

Committee recommends (To be determined at Committee Meeting)

SUMMARY

It has been a year since MWDOC decided to invest in amplifying its digital platforms, utilizing social media and the District's website, mwdoc.com, to engage a variety of audiences on top water issues, *in particular the California WaterFix*, and current and relatable water news, water-use efficiency opportunities, District events, District career and contract opportunities, upcoming meetings, and more. With the added investment, the District's digital footprint has grown impressively and MWDOC has fast become an industry leader for digital messaging on water related issues.

A staff presentation will elaborate on the history of this program and highlight success of these efforts.

ADDITIONAL INFORMATION (MAY STATISTICAL DATA)

At the time of this report, MWDOC has **7,821** followers on Facebook, **up 913** from the previous month. **429,692 total people were reached** during the month of April through this platform. **367,591** of that total were reached through a **\$4,500 boosted post effort**. Facebook post engagements totaled **4,868**, up **26%** from the previous month.

MWDOC now has **1,678 followers on Twitter**. **151,600 total people were reached** during the month of April on this platform and **\$750 was spent on Twitter messages**. Post engagements totaled **1,083**.

337 people now follow MWDOC on Instagram.

Analytics from the time period of **April 6 through May 14** show mwdoc.com has received **15,901 page views from 4,960 users**. 30% of traffic is “organic” meaning the website has been found through a variety of search engines while roughly 22% of traffic has been driven by Social Media. 45% of traffic came from users accessing the mwdoc.com url directly.

Additionally, during this period, nearly 80% of visitors to the website have been categorized as “new” meaning they have accessed the website directly one time, and 20% are return visitors. 70% of visitors view the website via desktop, 24% via mobile device, and 6% through tablets. Visitors are coming to the website most often Monday through Friday from 8am-4pm.

The top most visited web pages for the time period identified in this report are as follows:

- Home page 17%
- Residential Rebates 10%,
- WUE landing page 7%
- Turf Removal 7%
- Careers 4%
- Water Awareness Poster Contest 3%
- Board Meetings 3%
- OC Friendly Landscapes 3%
- Smart Sprinkler Timers, About MWDOC, Contact Us, Board of Directors, Drip Irrigation Rebates, MWDOC Service Area, RFPs/RFQs, and Water Policy Dinner pages make up approximately another 14% of page visits.

STAFF

For the third quarter (January-March 2018) of fiscal year 2017-2018, one trip was taken.

- January 10-12 – Heather Baez

The following is budgeted for fiscal year 2017/2018 for **staff**:

Washington D.C. Legislative Travel - \$10,800, 6 trips

- Total cost for this quarter: \$840.49 (January trip – Heather Baez)
- Year-to-date spent: \$1,723.72
- Budget remaining: \$9,076.28

Projecting for the fourth quarter, no trips are scheduled.

The focus of the trips this legislative year will be on the importance of the CA WaterFix (federal permits and funding), long term conservation and tax parity water rebate issues (turf removal program, et al.), and visits to representative's offices to update them on issues of importance to MWDOC and its member agencies.

SUBJECT: RECAP OF APRIL 19TH WATER POLICY DINNER**STAFF RECOMMENDATION**

Staff recommends the Board of Directors receive and file.

COMMITTEE RECOMMENDATION

Committee recommends (To be determined at Committee Meeting)

REPORT

Nearly 200 people attended the April 19th Water Policy Dinner featuring Department of Water Resources Director, Karla Nemeth at the Great Wolf Lodge in Garden Grove.

Nemeth's visit to Orange County came a little more than a week after the historic vote by the Metropolitan Water District of Southern California (MWD) to finance the bulk of the California WaterFix. Nemeth thanked Orange County for its leadership in supporting the generational project, while touting the need for additional investment in water infrastructure across the State and the need for continued efforts to conserve.

Anticipated revenues for the event are \$14,721.57. Anticipated expenses are \$14,070.48. These numbers are preliminary and show a net revenue of \$651.09.

The next MWDOC Water Policy Dinner will tentatively be in September.

SUBJECT: UPDATE ON 2018 OC WATER SUMMIT**STAFF RECOMMENDATION**

Staff recommends the Board of Directors receive and file.

COMMITTEE RECOMMENDATION

Committee recommends (To be determined at Committee Meeting)

REPORT

Staff is putting the finishing touches on the program for the 2018 OC Water Summit - **Water, What's Behind the Magic**. Table sponsors and individuals continue to RSVP with more than 225 attendees registered at the time of this report.

Staff continues to reach out to sponsors to underwrite the cost of the Summit. The preliminary budget for the 2018 event is \$79,950. The committee intends to underwrite the entire cost of the event through sponsorships.

Commissioner of the US Bureau of Reclamation, Brenda Burman, will serve as the Keynote Speaker with NBC 4 Weathercaster Fritz Coleman providing color commentary as Emcee and a video 'California Water Forecast'.

Other confirmed speakers and presenters include:

- Senator Bill Monning, Author of SB 623 (Possibly via Skype)
- Jon Coupal, President of Howard Jarvis Taxpayers Association, who will discuss SB 623.

Budgeted (Y/N): n/a	Budgeted amount: n/a	Core X	Choice
Action item amount: None	Line item:		
Fiscal Impact (explain if unbudgeted):			

- Paul Jones, General Manager, Eastern Municipal Water District, who will discuss AB 2050.
- Rob Hartman former Chief Hydrologist, CA/Nevada River Forecast Center
- David Rose, Chief Counsel for the State Water Resources Control Board who will present on the growing influence of the State Water Resources Control Board over local water providers.
- Panelists Marc Marcantonio, General Manager of Yorba Linda Water District and Kurt Schwabe, Adjunct Fellow of the Public Policy Institute of California who will discuss the unintended consequences of water conservation.
- Chris “Maven” Austin, Author of Maven’s Notebook

The eleventh Annual OC Water Summit will be again held at the Disneyland Grand Californian Hotel on June 1st, 2018

The Summit committee meeting dates are:

- Dark in May – staff meeting(s) only unless something unexpected occurs
- Monday, June 25, 2018, 8:30 am (Post event wrap-up meeting).

SUBJECT: 2018 Wyland National Mayor's Challenge

STAFF RECOMMENDATION

Staff recommends the Public Affairs & Legislation Committee: Receive and file the report.

COMMITTEE RECOMMENDATION

Committee recommends (To be determined at Committee Meeting)

DETAILED REPORT

During the month of April, cities across the U.S. took part in the 7th Annual Wyland National Mayor's Challenge for Water Conservation. Nationwide, cities compete within five population categories to win the title of most water-wise city in the nation. Residents participate by completing a series of online pledges which outline water-efficient goals that encourage positive changes in consumer behaviors. Contest winners for the five population categories will be announced by the Wyland Foundation on May 21, 2018.

Additionally, as part of the MWDOC-Wyland partnership established in 2017, an Orange County breakaway contest has been developed and a water-wise demonstration garden will be awarded to the highest participating *Orange County city within the MWDOC service area*. The breakaway contest winner will be announced on May 25, 2018. Staff will prepare and distribute a news release announcing the breakaway contest winning city, as well as

APRIL 2018 METRICS REPORT - Water Campaign

Water Campaign

- Goal: Promote discussion and educational activities for regional water conservation and water-use efficiency issues.

Facebook

Apr 4th

Thanks to the teachers and students who either spread the word or participated in our [#Voice4Water](#) video contest which ended mid-March. Official winners will be announced soon. In the meantime, congrats to Tyler Harris, a teacher at Estancia HS in Costa Mesa, who was randomly selected to receive a pair of tickets for himself and one of his students.

Apr 6th

MY WATER PLEDGE - CLASSROOM EDITION: The [Municipal Water District of Orange County](#) is partnering with [Wyland Foundation](#) for the 2018 National Mayor's Challenge for Water Conservation to award a water-wise pocket park to a winning city in their service area, which includes 28 OC water agencies.

If you are a teacher, you can pledge on behalf of your class so your students can "learn about the importance of our natural resources and engage in a fun classroom activity."

In addition to discussing the sustainability of water resources, all participating classes are entered into drawings for a chance to win \$250 gift cards to Staples for classroom supplies. The Classroom Edition includes STEM-based lesson plans for teachers, as well.

To participate, go to:

[www.mywaterpledge.com/students](#)

April 11th

Have you heard about the California WaterFix in the news? This video explains that: "On average, the total volume of water exported from the Delta would be about the same as today."

It's one small part of our high school water education curriculum. On our first classroom visit, students learn about where their water comes from. They explore their own water usage and contemplate ways to conserve water. On the second classroom visit, we ask what water issues could be addressed at school or in their community. Videos like this one spur research and thoughtful debate amongst students when we ask "Is this a good solution?" and then dig deeper with "Why / Why not?" questions. The curriculum culminates in a campus wide water expo. [Municipal Water District of Orange County](#)

<https://youtu.be/1lbIKcVclHA>

Media = Delta Flow Animation Video

Apr 18th

We reference a number of [California Education and the Environment Initiative \(EEI\)](#) lessons for high school water-focused programs on our Water Resources page. Each EEI curriculum unit contains a combination of teacher, classroom, and student components that are full of engaging lessons & informational texts.

[Municipal Water District of Orange County](#)

Thanks to all the teachers and students who either spread the word or participated in our #voice4water video contest which ended mid-March. Official winners will be announced soon. In the meantime, congrats to Tyler Harris, a teacher at Estancia HS in Costa Mesa, who was randomly selected to receive a pair of tickets for himself and one of his students. #ocwatereducation #bewaterwise

“Protecting the Quality of the Rockflower Reservoir” is a case study of a fictitious reservoir and deals with the interest-of-a-few vs. the interest-of-many. • Visit our What About Water page to download the PDF #lessonplan and student booklet. #ocwatereducation #watereducation #bewaterwise #canva

The Inland Empire Utilities Agency’s (IEUA) 10th Annual Earth Day celebration meant a field trip for local schools today. Their free community event on April 19th “promotes environmental awareness to the community and provides ways for the community to take action and support environmental stewardship.” #cityofchino #wetlands #environmentaleducation #handsonlearning #watereducation

What happens when a rainstorm (squirt bottle with water, in this instance) hits a watershed? It's an a-ha moment when you can actually see the runoff and the pollutants carried with it as it reaches the ocean in our model. Then comes a great discussion about ways to prevent this type of pollution from occurring. #watershed #watereducation #ocwatereducation #bewaterwise
