PRESENTATION/DISCUSSION/INFORMATION ITEMS

INPUT OR QUESTIONS ON MET ISSUES FROM THE MEMBER AGENCIES/MET DIRECTOR REPORTS REGARDING MET COMMITTEE PARTICIPATION

Director McKenney highlighted MET’s $21 million contract regarding the Greg Avenue Pump Station, changes to the Landscape Transformation Program rebate ($2/square foot), the authorized purchase of 732 acres in Palo Verde, and the induction of three new MET Directors. Director McKenney also reported on California WaterFix activities and the Colorado River Drought Contingency Plan.

Director Ackerman reported on the authorization to participate in the Sites Reservoir Work Plan.

Director Dick commented on the WaterFix (good) and the proposed water tax (bad).

Director Barbre highlighted the California WaterFix and the need to continue to support the two-tunnel construction. Responding to Director Barbre, representatives from Mesa Water, Yorba Linda Water District, Orange County Water District, El Toro Water District, and Irvine Ranch Water District all expressed support for the twin tunnel project.

Mr. Deven Upadhyay (MET) advised that upon review of the environmental analysis, the twin tunnels make the most sense.

Considerable discussion ensued regarding the WaterFix, the differences between a single and two-tunnel system, and the importance of the WaterFix and its effect on California’s water reliability.
PRESENTATION REGARDING THE REGIONAL RECYCLED WATER PROGRAM BY
METROPOLITAN STAFF

Mr. Deven Upadhyay of MET provided an overview of the Regional Recycled Water Program, noting that it is a collaboration between MET and the Sanitation Districts of Los Angeles County, it is the development of a new water resource which will allow up to 150 mgd in deliveries to MET’s member agencies, it will allow recharge and storage into groundwater basins, and will increase regional storage reserves and reliability. Mr. Upadhyay also reviewed the work that has been authorized/completed to date, the site location, an overview of the conceptual planning studies, the importance of a phased implementation, and program costs. He advised that the MET Board will hold workshops this summer, and that staff will be asking for Board approval to start the environmental process and engineering support, and that work will continue on the Demonstration Plant testing.

Considerable discussion ensued regarding Direct Potable Reuse, and associated costs.

Following discussion, the Board received and filed the report.

WATER SUPPLY UPDATE

MWDOC Water Resources Analyst, Kevin Hostert, provided a presentation on the U.S. drought monitor, climate outlook, local precipitation statistics, northern California Accumulated precipitation, storage level data throughout the state, the State Water Project Table A allocations (currently at 35%), and MET estimated storage levels.

The Board received and filed the report as presented.

CALIFORNIA WATERFIX ACTIVITIES UPDATE

No additional information was discussed; the Board received and filed the staff report.
