DIVISION 26 00 00 - ELECTRICAL SPECIFICATIONS

A. General
1. Description: General electric installations in accordance with the National Electrical Code, NFPA 70.
2. Locations: These electrical installations shall be installed in accordance with the National Electrical Code, NFPA 70.
3. Equipment: All electrical equipment shall be listed and labeled with the UL and other appropriate agencies.
4. Wiring: All wiring shall be in accordance with the National Electrical Code, NFPA 70.
5. Grounding: All electrical systems shall be grounded in accordance with the National Electrical Code, NFPA 70.
6. Overcurrent Protection: All electrical circuits shall be protected against overcurrent in accordance with the National Electrical Code, NFPA 70.

B. Lighting
1. General: General lighting shall be installed in accordance with the National Electrical Code, NFPA 70.
2. Fixtures: All lighting fixtures shall be listed and labeled with the UL and other appropriate agencies.
3. Wiring: All wiring for lighting shall be in accordance with the National Electrical Code, NFPA 70.
4. Grounding: All electrical systems shall be grounded in accordance with the National Electrical Code, NFPA 70.
5. Overcurrent Protection: All electrical circuits shall be protected against overcurrent in accordance with the National Electrical Code, NFPA 70.

C. Signage
1. General: All signs shall be in accordance with the National Electrical Code, NFPA 70.
2. Wiring: All wiring for signage shall be in accordance with the National Electrical Code, NFPA 70.
3. Grounding: All electrical systems shall be grounded in accordance with the National Electrical Code, NFPA 70.
4. Overcurrent Protection: All electrical circuits shall be protected against overcurrent in accordance with the National Electrical Code, NFPA 70.

D. Emergency Lighting
1. General: Emergency lighting shall be installed in accordance with the National Electrical Code, NFPA 70.
2. Fixtures: All emergency lighting fixtures shall be listed and labeled with the UL and other appropriate agencies.
3. Wiring: All wiring for emergency lighting shall be in accordance with the National Electrical Code, NFPA 70.
4. Grounding: All electrical systems shall be grounded in accordance with the National Electrical Code, NFPA 70.
5. Overcurrent Protection: All electrical circuits shall be protected against overcurrent in accordance with the National Electrical Code, NFPA 70.
