Subj: Compensation increase due to the Coronavirus pandemic  
Date: April 12, 2020

We are appalled to think that in the midst of these very trying times with business closing down, people losing their jobs, others getting sick and others dying, the board takes an opportunistic and selfish approach to enrich themselves as a result of having to hold a few Zoom, webinar meetings because of the Coronavirus epidemic.

The webinar meetings do not pose any real threat to the board as the meetings are probably held from the comfort of your home or office. The community that you serve is on the brink of bankruptcy and collapse and it is under a very heavy financial burden. The people do not need additional surcharges to add to their financial troubles.

Please take into account the dire situation we are all facing and vote against the additional compensation at this time. It would be like a breath of fresh air for us to know that we won't have any additional expenses added to our already stretched-out budgets.

With all the life-threatening sacrifices that so many people are taking to help those who are sick . . . without additional compensation . . . you should be talking about taking a cut in pay to allow for some financial relief for your customers water bills.

Thank you for taking the high road during these trying times and vote against additional compensation at this time.

Thank you,

George Psaros
