

Regional Career Exploration

# POWER THE VALLEY

## Your Career in Energy and Environment

Join us for an exploration of Central Valley careers in industries and organizations that are actively working to reach California's climate goals. This event will highlight career pathways across energy, environmental resources, water, and telecommunications, with an emphasis on interactive, skills-based learning.

- Interactive & skills-based workshops
- Get hands-on with the tech used in water, energy, and telecom
- Meet professionals leading the way in sustainability careers
- Learn about the certifications and degrees that lead to high-paying jobs right here at home

Students, teachers, and administrators welcome!
